matters To begin with, since this is the first 2 deposition being taken in this case, I want to make it clear that this deposition is being taken pursuant to the Federal Rules of Civil Procedure; is that correct? 5 MR TORPEY: That's correct 6 MR TURNER: All objections except as to form 7 being reserved to the time of trial 8 MR TORPEY: The rules provide that all objections other than form and foundation are preserved 9 10 and there is no need to raise them. It also provides 11 that there are no speaking objections 12

MR TURNER: In view of the fact that we have received five deposition notices with differing requests for documents, I just want to quickly go over them and make it clear what has been and is being produced

MR TORPEY: Well, let me do this, Marshall 17 I don't want this to, you know, detract or take away from the amount of time we have here today with the witness. We can discuss that at another time. If you have additional documents you're producing here today, produce them Otherwise we can discuss this at another time

23 MR TURNER: This will just take a few 24 minutes In view of the fact that we received five notices, I think it has to be clear, a couple of them 1 Those documents are here. If we can have an agreement on them, you can examine the witness on them

3 Without an order, you cannot have copies, but I may let

you see them so you can examine the witness 5

The third item in that second deposition notice contains documents regarding ground handling agreement. This witness has no knowledge of documents recording ground handling agreements

The second amended notice, which was the third notice we received in late September, that is exactly the same as the second one. Nothing further to be produced there

13 Two, a third amended notice and a fourth 14 amended notice were both received last week. They 15 request some additional documents including ANA 16 operation manual in existence on the day of the 17 accident, October 7, 2003

This witness has not had any opportunity to attempt to locate such a document nor does he know if there is a document that is in existence You, of course, can examine him on this

He did however obtain from ANA's legal department a section that he believes is the only conceivably relevant section which is current. Some of it was applicable in October of '03 Some of it may not

Page 8

having been received just last week

The first one, which is the original notice. has an Exhibit A requesting only the All Nippon Airways investigation file That was fully produced as part of our initial disclosure

The second one -- notice is an amended notice to take video deposition. That was received in mid September And there are a couple of additional requests in addition to the accident investigation file in Exhibit A

Number 2 requests All Nippon Airways pilot files which requests all accidents/incidents that the pilots, in this case Mr Yamaguchi, may have been involved in or received disciplinary action. There are no such accidents/incidents or disciplinary action It also requests certificates and training from 1995 to date

17 We do have his certificates, and we do have his record of training, but these are documents that 19 20 contain personal information that we would only produce if we have a confidentiality order And to my knowledge 21 22 I have not received such an order from United's counsel, although the court did direct that United's counsel 23 provide us with an order pursuant to her order And we had a hearing on November 13

have been, but you're welcome to look at that version

2 Also, you asked for all the publications on

3 board the aircraft, required to be onboard the aircraft

on October 7, 2003 This witness does not have control

over those documents, and he has not had the opportunity 6 to look for them since he didn't see this notice

actually until yesterday

8 And you also asked for routing in item 7 of 9 the third and fourth amended notices, his routing on the day of October 7, 2003 This witness has not had the 10 11 opportunity to look for them He doesn't know if it 12 still exists for the day of October 7, 2003, but he does 13 know from whom he would have obtained such routing. And it was neither ANA nor United Airlines He knows the 14

company he received it from

That's all I have on these notices because I have a few documents that he also obtained that are included in the ANA accident investigation file, but he doesn't have and never had access to and never saw the complete ANA investigation file that has been produced in this case

22 MR TORPEY: Well, let me quickly respond 23 First of all, as I said in both conversation and by letter, I was and continue to be willing to make any documents that you believe are confidential and should

be subject to the protective order retroactively covered 1 1 Q You're the pilot in command of a Boeing 777 2 under that order, and to date you refused commercial airliner, correct, sir? 3 Secondly, this notice, which is the notice 3 Yes 4 dated November 19, 2007, was sent on that day by fax and 4 MR TURNER: I hate to interrupt Is it okay 5 email to your office. You filed no objections as 5 with the translators and you if Mr Matsutani kindly 6 required if you have an objection. chimes in once in a while? 7 And you can laugh, Marshall I think that's 7 MR TORPEY: Well, here's what I think I 8 disrespectful Do whatever you like Say whatever you 8 think, with all due respect to Mr Yamaguchi, I don't 9 like. But here we are at the deposition. You're 9 think it's necessary that every question and every 10 prepared to produce some but not all of the documents answer be translated This is a commercial airline 10 11 And to add to that, this was a notice by a 11 pilot He speaks every day fluently, I'm sure, with air 12 party to this case to another party. This is not a 12 traffic control The regulations require that That's 13 notice to Mr Yamaguchi personally 13 part of his job 14 Now you chose not to produce documents, and, 14 And for us to sit here for hours with 15 as you know, we have a motion that's going to be filed 15 translation that's unnecessary, I think is unnecessary 16 with the court, and we're asking the court to take 16 I think if and when there comes a point in time that the 17 appropriate action with regard to what you've done 17 witness feels that there is a language problem, then 18 I don't think there's anything more that I 18 certainly one or both interpreters can weigh in But 19 need to say. If you want to hand me documents you're 19 otherwise I think, Marshall, all we're doing is wasting 20 producing in response to my notice, I'll look at them to 20 a bunch of time It's not really up to you I would 21 the extent I can But it won't be possible for me to 21 ask Mr Yamaguchi 22 spend much time on them nor will I have the ability to 22 Q. And let me ask you -consult with my experts which I would certainly have 23 MR TURNER: Hold it Before you ask a 24 done had you produced this as required 24 question, you've made a comment on the record I'm 25 There was a document request sent to you, as 25 entitled to respond Page 10 Page 12 you know, that you responded to a week and a half or two 1 MR TORPEY: Go ahead, please 2 weeks ago that was sent back in October There are 2 MR. TURNER: Mr. Yamaguchi does not give 3 items in there that you haven't produced either, so 3 depositions every day, and it is not his native tongue 4 we'll address that at another time 4 He is entitled to a translator, and he will use one My 5 MR TURNER: I think in response to your 5 question had nothing to do with it. My question was a 6 comments I want the record to reflect that all of our 6 matter of procedure here 7 responses have been timely and complete And I 7 We have brought Mr Matsutani as a translator R certainly want to point out for the record the court's 8 here, and he did just - I don't know if it was a order of November 19 requiring United to provide a 9 constructive comment or not for the other translator. stipulated protective order as referenced at her hearing 10 10 And I just wanted to know if that's offensive on June 13, and on - I'm sorry - November 13, 2007, 11 to you or to the other translator in which case he won't and also at that hearing Mr. Torpey informed me that he 12 12 interfere But it seemed to be very simply and perhaps would be providing me with the corrected protective 13 13 constructive. But I just want to make sure there wasn't 14 14 any objection to it. And the court has ordered that United Airlines 15 15 MR. WORTHE: We also have to take into revise the stipulated protective order and that the 16 16 consideration the reporter with two people speaking over parties shall then submit the jointly proposed order to 17 17 each other My suggestion is one interpreter the court I still have not seen that order 18 18 MR TORPEY: Well, here is the way I think it 19 MR TORPEY: Let's begin the deposition I'd 19 should be done. First of all, it's now almost 10:15 20 like to start 20 And I haven't gotten one question or answer from 21 EXAMINATION BY MR TORPEY 21 Mr Yamaguchi 22 MR TORPEY: Q Mr Yamaguchi, please, you do 22 We have got a dozen people in the room, and we 23 have some understanding of English. You can understand 23 have to get this deposition done. We started at 10:00 24 me as we speak now; correct? at your request, and we haven't gotten one question 25 A No I do not have an accurate understanding 25 done I've asked Satoe Ohari to be the interpreter

_			8
	1 It's my deposition of this witness Ms Ohari is going		1 Mr Yamaguchi, what positions have you held when you
	2 to interpret this	ı	2 started at ANA up to today?
	3 If your interpreter believes that something is	- 1	A At first I was copilot for Boeing 767 Then I
	4 interpreted incorrectly, then I welcome him to speak up		4 was copilot for 747-400, and now I am captain of 777
	5 and correct it You know, we've both done this before	- 1	
	6 many times, so this is not something new	1	Q And how long have you been a captain for the 5 777?
	7 But I also — and I'll stand on this,	- 1	
	8 Marshalf we can have him we can have Satoe and		7 A Seven years
- 1	9 your interpreter interpret every single question if		Q Okay So roughly since 2000 sometime?

1	employment, certifications, hours flown, any problem	1	the other is HF, and there are three VHFs and two HFs
2		2	
3		3	Q I'm sorry There were two what did you
4	company to decide	4	say?
5	Q If the company chose to give them to us,	5	A HF
6		5	Q With regard to the 777 you were in on the day
7	•	7	of this accident, was there anything different or unique
8		8	about that? Or basically was it just like all the other
9	Strictly regarding your avlation experience, training,	9	777s you've been in for ANA?
10	hours, work history, not your personal for example,	10	A It was the same
11	personal medical, personal financial information No,	11	Q Now, with regard to the VHF radios, for what
12	•	12	purpose would you use those?
13	A. Yes	13	A. It is used for communication with ATC or the
14	Q. Do you know what an operations manual is? Are	14	company radio Also to send — also for data
15		15	communication
16	A Yes	16	Q. Okay How about the HF?
17	Q What is an operations manual?	17	A. HF is used to communicate with the controllers
18		18	in areas that the VHF would not reach.
19		19	CHECK INTERPRETER: For example, over the
20		20	ocean.
21	A Yes	21	THE INTERPRETER: For example, over the ocean.
22	Q It sort of is the outline, if you will, of how	22	MR TORPEY: Q With regard to the you say
23	the company and its employees are expected to perform	23	there are three separate VHF radios onboard the 777?
24	their duties including with regard to the operation of	24	A Yes. Three
25	ANA aircraft; correct?	25	Q. And could they be turned to different
	Page 34	ĺ	Page 36
<u> </u>		 	
1	A Yes	1	frequencies simultaneously?
2	Q And it's required that that manual be kept	2	A. Yes
3	with the aircraft?	3	Q Would that typically be the protocol that was
4	A. Yes	4	followed by ANA that there would be three radios on
5	Q. Do you know how many 777s ANA currently has in	5	three different frequencies, or would they be tuned to
6	its fleet?	6	the same frequency What would routinely be the
7	A I do not have an accurate recollection. Maybe	7	protocol? And we're just talking about the VHF radios
8	about 30	8	A Ordinarily or typically, one VHF is used to
9	Q Are they the same model or configuration? And	9	communicate with ATC The second one is used to
10	I'm not talking about configuration, but in terms of the	10	communicate with the company or is set for guard
11	cockpit or equipment?	11	frequency, and the third one is used for data
12	A Yes	12	communication
13	Q Was that about the size of the fleet back on	13	Q All right Let me make sure I understand
14	October 7 of '03?	14	The first radio is used for air traffic control
15	A If we are going to compare with that time	15	communication; is that correct?
16	period, I would say that there is twice as many today	16	MR TURNER: Can I have that question read
1.7	Q Okay But as far as the equipment onboard,	17	back please in English.
18	and again, in the cockpit they're basically the same	18	(Record read by the reporter)
19	today as back in '03?	19	MR TURNER: You mean the first VHF?
20	A. Yes	20	MR TORPEY: Yeah I'll restate the question
21	Q. How many radios are there onboard an ANA 777?	21	Q I'm only talking now, Mr Yamaguchi, about VHF
22	And for clarity, when I say radios, I mean radios that	22	radios. I'm not talking about HF. We'll do that
l		23	separately
23	you would use to talk to people outside of the aircraft,	24	TEX and among the second short MATE
23 24	for example, air traffic control	24 25	If I understand you, there are three VHF
23	•	24 25	radios, and one of the three is dedicated for flight
23 24	for example, air traffic control		· · ·

	CISTIN	I al	nagueni	
	deck communications with air traffic control; is that		1 of questions	
;	2 correct?		Q So back on October 7 of '03, if you wanted to	
	B A Yes		3 communicate with air traffic control, you would have to	٥
4	Q. The second VHF radio you said is used for		switch to a different frequency on the VHF radio than	_
	communicating with the company or for the guard	1	you would if you wanted to talk to United ramp contro	1:
8	_	.] {	5 correct?	•
7			A Since the other party that we communicate is	
8	B A Yes	1 8	different, naturally the frequency would have to be	
9	Q What do you mean by the guard frequency?	9		
10	A If there should be any failure in the VHF that	10	Q So you use the can we call the one VHF	
11	the second section is a second section in the second section in the second section is section.	1:	I radio as the dedicated radio to talk to ATC or United	
12	• -[1.7	2 ground on the respected frequencies? In other words,	
13	Q So you leave this second radio, as we're	13	you use the same radio to do both functions from;	
14	, , , , , , , , , , , , , , , , , , ,	14	correct?	
15	p - p - c - c - c - c - c - c - c - c -	15	MR TURNER: Objection as to form and	
16		16		
17		17		
18	,	18		
19		19		
20		20		
21 22	at guard frequency or a frequency that allows	21	•	
23		22	, , , , , , , , , , , , , , , , , , , ,	٠
24	Q:- Okay And if the aircraft was on the ground,	23	- 12-2-	
25	it would be tuned to the frequency that allows you to communicate with ANA; correct?	24 25	· ·	
-	Page 38	1		ſ
	rage 50		Page 46	١
1	A Yes	1	frequency so that it was dedicated to getting data as	
2	Q And then the third VHF radio you said is for	2	you've described?	
3	data Explain what you mean by that	3	A Yes.	
4	 A On land, it is set for data communication, but 	4	Q And up to the point where the collision	
5	ordinarily in the air, it is at guard frequency	5	occurred on October 7, 2003, was that radio still tuned	
6	Q What kinds of data would you get with that	6	and receiving data?	
7	third radio when it was on the ground receiving data?	7	A It is already four years since then, so I do	1,17
8	A The representative data would be weather	8	not have an accurate recollection about that	
9	related to the flight, weight and balance, company	9	Q Do you have any would it be standard	1100
10	messages	10	protocol, Mr. Yamaguchi, that back on October 7, 2003,	rideden.
12	Q So of the three radios, only one would be used for purposes of communicating with, as you said, ATC.	11	you would have changed the frequency on that radio that	
13	Would that be the same radio that would be used for	12	you were receiving data while you were still on the	
14	purposes of contacting, for example, United ramp control	14	ground?	
.15	at San Francisco?	15	THE INTERPRETER: I would like the question again, please.	A PERSON
16	A Yes	16	(Record read by the reporter)	Tack:
17	Q Now, when I used let me ask you, when you	17	MR TORPEY: Let me rephrase it	£116
18	use the term air traffic control, are you referring to,	18	CHECK INTERPRETER: When you say protocol	A Charlet
19	for example, at San Francisco the FAA ground or FAA air	19	MR TORPEY: Q I'll withdraw the question	ALC: N
20	traffic controllers?	20	I'll ask you a new question	SEAT IN
21	A Yes.	21	With regard to we'll call it radio 3	integral
22	MR TURNER: Mr Torpey, would this be a good	22	that you indicated would have been tuned to receiving	trates.
	time to take a break. We've been going for about an	23	data including weather briefings and other important	EUFILIAN.
	hour and a half without a break	24	information, would it be fair to say, Mr Yamaguchi,	PULLULA.
25	MR TORPEY: I'm almost done with this couple	25	that prior to the impact and leading right up to the	14 THE

1		18	3
1		19	·
2		20	
2	A. I didn't notice that I don't understand why	21	
2	•	22	·
2:	Q Well, I appreciate you don't understand why	23	
24		24	
25		25	Q And who sent you that memo, the scheduling
	Page 42	\cdot	Page 44
<u> </u> _		<u> </u>	
1	day	1	change memo that you considered a suspension?
2	-	2	MR TURNER: Objection as to form and
3		3	foundation
4	October 7, 2003, one of the three radios, the VHF	4	THE WITNESS: The schedule on the computer was
5	radios, at the time of impact was tuned to a frequency	5	different, but I do not know who instructed that
6	that allowed ANA's aircraft to receive data?	6	MR TORPEY: Q Did it say anything other
7	Is that a fair statement, sir?	7	than a — showing a revised schedule? In other words,
8	A That is my recollection I do not recall that	8	did it give information as to why it was being changed?
9	I adjusted that radio	9	A That wasn't stated.
10	 Q. And to your knowledge no one else did either; 	10	
11	correct?	11	change?
12	A 1 didn't notice it	12	A No I did not because I thought it was
13	Q. Okay Let me ask you real quick, and then	13	Q Did you ask anyone about that scheduling change? A No I did not because I thought it was natural for there to be a rest since it was right after an accident Q Did you have to get any training that you would not otherwise have had to get as a result of this accident? A There was no special training, but together with Mr Nishiguchi we made one round-trip domestically and also one round-trip between Narita and San Francisco Q And what was the purpose of that trip?
14	we'll break	14	an accident
15	A I'd like to take a break	15	Q Did you have to get any training that you
16	MR TORPEY: Okay Certainly, we'll take a	16	would not otherwise have had to get as a result of this
17	break.	17	accident?
18	THE VIDEOGRAPHER: This concludes Videotape 2	18	A There was no special training, but together
19	in the deposition of Eishin Yamaguchi. Going off the	19	with Mr Nishiguchi we made one round-trip domestically
20	record The time on the monitor is 11:40 a m	20	and also one round-trip between Narita and
21	(Recess taken)	21	San Francisco
22	THE VIDEOGRAPHER: Here begins Videotape 1 of	22	Q. And what was the purpose of that trip?
23	the deposition of Eishin Yamaguchi Coming back on the	23	A I do not know
24	record The time on the monitor is 11:54	24	Q Did you have to get instruction or take any
25	MR TORPEY: Q Mr. Yamaguchi, we talked	25	kind of a test during that trip?
1	Page 43		Page 45
	ŭ		

13 the route manual 14 Q Is that the operations manual? 14 Q Is that the operations manual? 15 A No It's a separate thing. 16 Q And it's called the route manual? 17 A Yes. 18 Q And it's called the route manual? 19 A Each individual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 individually? 22 A Mown bis doing the looking, me or you? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 Page 46 1 Q Mr Yamaguchi, let me ask you again If you 29 wanted to go and look at the route manual - Til 3 rephrase it 4 Would ANA have a copy of the route manual that 5 you've referred to? 26 A The company has a copy, and also the same copy of si distributed to each individual 8 Q Okay. Now, what does the warning that you've gescribed as the corrective action following this 10 October 7, 2003 accident, what does that warning state? 11 A It is a warning that says that the aircraft should not taxi if there is an aircraft pushing back 13 from gate 1 or 2 14 Q Is that the opter annual; sthat a route manual that had existed before October 7, 073? A The route manual that had existed before October 7, 073? A The route manual that had existed before October 7, 073? A The route manual that had existed before October 7, 073? A The route manual that had existed before October 7, 073? A There was no reason for the first officer not to be the flying pilot on October 7, 2003 accident, what does that warning state? A No. I was not on medication that procluded vour from being the flying pilot and october 7, 2003? A No. I was not on medication that precluded you from being the flying pilot that day? A No. I was not on medication that precluded you from being the flying pilot and that had existed before October 7, 073? A No. I was not on medication that precluded you from being the flying pilot on October 7 of 073? A No. I was not on medication that precluded you from being the flying pilot and that had existed		Eisini		
2 Q Are you aware of any corrective action 3 undertaken by ANA as a result of the October 7, 2003 4 accident to preclude such an accident from happening in 5 the futures? 6 A Yes 7 Q And what corrective action was taken? 8 A The accident facts were reported to crew 9 members and also there is a chart that we use and a 10 warning information was noted on the chart 11 Q And where is this chart and warning lept? 12 A There is a route manual, and it is written on 13 the route manual and it is written on 14 Q Is that the operations manual? 15 A No. Iff a separate thing 16 Q And iff scalled the route manual? 17 A Yes 18 Q And is that kept in the altroaft? 19 A Each Individual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get if? 25 A A And who is doing the looking, me or you? 26 manual, where would you go to get if? 27 A The company has a copy, and also the same copy 28 a Well, each individual had one 39 Q And are you familiar with the term pilot 40 Q And where is this chart and warning lept? 41 Q And where is this chart and warning lept? 42 A Yes 43 Yes 44 Yes 44 Yes 45 A Yes 46 Q Is twould have the number of hours flown too; 47 correct? 48 A Yes 49 Q And do you as a pilot for ANA have something 49 Would ANA have a copy of the route manual that 40 Q Mr Yamaguchi, let me ask you again If you 40 would ANA have a copy of the route manual that 41 Q Is that a writing that says that the aircraft 42 you've referred to? 43 A Yes 44 Yes 45 A Yes 46 Q And would that be a document that you would 47 Individually 48 A Yes 49 Q And do you as a pilot for ANA have something 49 Would ANA have a copy of the route manual that 40 Yes 41 A Yes 41 A Yes 42 A Yes, that's right 43 Yes 44 Yes, that's right 44 Yes, that's right 45 A Yes 46 A Yes 47 Yes 48 A Yes 49 Q And would that the aircraft 49 Q Mr Yamaguchi, let me ask you again If you 40 Yes 40 Yes yes that a writing that the pilot logbook is		1 A No		1 October 7, 2003, on the aircraft that day; correct?
3 undertaken by ANA as a result of the October 7, 2003 a cocidant to preclude such an accident from happening in the future? 6 A Yes 7 Q And what corrective action was taken? 8 A The accident facts were reported to crew members and also there is a chart that we use and a 10 warning information was noted on the chart 11 Q And where is a thirt that we use and a 10 warning information was noted on the chart 11 Q And where is this chart and warning kept? 12 A There is a route manual; and it is written on 13 the route manual 15 A No It's a separate thing 16 Q And it's called the route manual? 17 A Yes 18 Q And is that kept in the aircraft? 19 A Each individual has one 20 Q So every pilot has their own route manual? 21 A By cwn, your term own, do you mean 22 individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 2 wanted to go and look at the route manual — Til 3 rephrase it 4 Would ANA have a copy of the route manual at hat 5 you've referred to? 4 Would ANA have a copy of the route manual at hat 5 you've referred to? 5 A The company has a copy, and also the same copy 7 is distributed to each individual 1 A It is a warning that the pilot logbook? 1 A The manual warning that the pilot logbook is a personal record. It is different from the journey log, which is the logbook for the aircraft on October 7 of 2003? A Yes 1 A Yes 1 A My condition of the warning that you've described as the corrective action following this 1 Cotober 7, 2003 accident, what does that warning state? 1 A It is a warning that a publication that is required to be 1 The company has a copy, and also the same copy 1 is distributed to each individual 2 Q Is that a — this route manual; that 3 or other annual that had existed before October 7, 032 1 A Yes 2 Q Is that a — this route manual; that 3 or other annual that had existed before october 7 of 2003? A Yes 3 Q Okay Now, what does the warning that the pilot logbook for the aircraft on October 7 of 2003? A Yes		2 Q Are you aware of any corrective action		
4 accident to preclude such an accident from happening in 5 the future? 6 A Yes 7 Q And what corrective action was taken? 8 A The accident facts were reported to crew 9 members and also there is a chart that we use and a warning information was noted on the chart 11 Q And where is this chart and warning kept? 12 A There is a route manual, and it is written on 13 the route manual is at evolve manual, and it is written on 13 the route manual? 14 Q Is that the operations manual? 15 A No. It's a separate thing 16 Q And lift called the route manual? 16 Q And it's called the route manual? 17 A Yes 18 Q And is that kept in the aircraft? 19 A Each Individual has one 20 Q So every plich has their own route manual? 21 A By own, your term own, do you mean 22 individually? 22 Q So every plich has their own route manual? 23 A And who is doing the looking, me or you? 24 manual, where would you go to get it? 25 A A and who is doing the looking, me or you? 26 manual, where would you go to get it? 27 a rephrase it A and wha accept, and also the same copy 7 is distributed to each individual so Cocober 7, 2003 accident, what does that warning state? 11 A It is a warning that says that the aircraft and you are a pelic for ANA have one? 24 A Yes 25 A Yes 26 Q Now, You what does the warning that you've described as the corrective actions that you've described as the corrective actions that you've described; nonet; 12 Should not taxl if there is an aircraft pushing back 17 Q Okay And it bohioushy was revised with these corrective actions that you've described; cornect? 28 A Yes 39 Q Now, You and also the same copy of the route manual? 29 Q And do you as a pilot for ANA have something that you we described as the corrective actions following this order that you would have been the fighting pilot or Dispositive to each individual have a copy of the route manual that the aircraft that you would have been the fighting pilot on October 7, 2003? 20 A Now you, what does the warning state? 21 A It is a warning that says that the aircraft sec				
5 the future? 6 A Yes 7 Q And what corrective action was taken? 8 A The accident facts were reported to crew premembers and also there is a chart that we use and al warning information was noted on the chart 11 Q And where is a thart that we use and al warning information was noted on the chart 11 Q And where is this chart and warning kept? 12 A There is a route manual; and it is written on 13 the route manual 15 A No It's a separate thing; 16 Q And it's called the route manual? 16 Q And it's called the route manual? 17 A Yes 18 Q And it's called the route manual? 19 A Each Individual has one 20 Q So every plict has their own route manual? 21 A By own, your term own, do you mean 22 Individually? 23 Q Well, If you wanted to look at the route wanted to go and look at the route manual 24 manual, where would you go to get It? 25 A And who is doing the looking, me or you? Page 46 1 Q Mr Yamaguchi, let me ask you again. If you wanted to go and look at the route manual at the you've referred to? 4 Would ANA have a copy of the route manual that you've referred to? 5 A The company has a copy, and also the same copy is distributed to each individual as so that me alroraft pack from gate 1 or 2 4 Q Ckay Now, what does the warning state? 11 A It is a warning that says that the aircraft should not taxif if there is an aircraft pushing back from gate 1 or 2 4 Q Is that a – this route manual; is that a route manual is the route manual; is that a publication that's required to the control to a copy of the route manual? 24 Q So at the conflowing this control to a copy of the route manual? 25 A There was no reason for the first officer not to be the flying pilot that day? 26 A The route manual is the desisted before October 7, 103? 27 A Yes 28 Q Now, And it obviously was revised with these 13 corrective actions that you've described; correct? 29 Q And is that a publication that's required to 20 Q And is that a publication that is required to 20 Q And is that a publication that is required to 21 be kept on the aircraft itself	ı		in	
7 Q And what corrective action was taken? 8 A The accident facts were reported to crew 9 members and also there is a chart that we use and a 10 warning information was noted on the chart 11 Q And where is this chart and warning kept? 12 A There is a route manual? 13 the route manual 14 Q Is that the operations manual? 15 A No It's a separate thing. 16 Q And it's called the route manual? 17 A Yes 18 Q And is that kept in the aircraft? 19 A Each inclividual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 inclividually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 A The company has a copy, and also the same copy 27 is distributed to each individual 28 Q Okay. Now, what does the warning that you've referred to? 29 A The company has a copy, and also the same copy 20 described as the corrective actions that you've referred to? 31 A It is a warning that says that the aircraft should not tax if there is a an aircraft pushing back 31 from gate 1 or 2 32 Q Way And it obviously was revised with these 33 corrective actions that you've described; correct? 34 A Yes 35 Q And is that a publication that's required to 20 Q And is that a publication that's required to 20 Q And is that a publication that's required to 20 Q And is that a publication that's required to 20 Q And is that a publication that's required to 20 Q And is that a publication that's required to 20 Q And is that a publication that's required to 20 Q And is that a publication that's required to 20 Q And is that a publication that's required to 20 Q And is that a publication that's required to 20 Q So at the time of this accident, there was at 21 least one copy of the route manual as it existed on Page 47 Page 47 Page 47 Page 47 Page 48 Page 49			ŀ	•
8 A The accident facts were reported to crew 9 members and also there is a chart that we use and a 10 warning information was noted on the chart 11 Q And where is this chart and warning kept? 12 A There is a route manual, and it is written on 13 the route manual 14 Q Is that the operations manual? 15 A No It's a separate thing 16 Q And it's called the route manual? 17 A Yes 18 Q And is that kept in the aircraft? 19 A Each individual has one 20 Q So every pilot has their own route manual? 21 Individually? 22 Q Well, if you wanted to look at the route 23 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 wanted to go and look at the route manual - Til 27 a proper is distributed to each individual 28 Q Okey. Now, what does the warning that you've described as the corrective action following this should not tax if there is an aircraft pushling back from gate 1 or 2 20 Q And is that a publication that's required to 2 30 Q Now, you indicated earlier that there was no reason for the first officer not to be the flying pilot on October 7, 2003 accident, what does that warning state? 21 A Yes 22 Q And is that a publication that's required to 2 23 q And was that he route manual; bath and existed before Corboer 7, '03? 24 A Yes 25 Q And is that a publication that's required to 2 26 Q And state the corrective actions that you've described as the corrective action following this should not that if there is an aircraft pushling back from gate 1 or 2 31 Q Okey And to bowloady was revised with these should not the individual should bring one in 4 Q Okay And to bowloady was revised with these should not the individual should bring one in 4 Q Okay And to bowloady was revised with these should not the individual should bring one in 4 Q Okay And to bowloady was revised with these should not the individual should bring one in 4 Q Okay And to bowloady was revised with these should not the individual should bring one in 4 Q Okay And to bowloady was revised with these should not the individual should	ŀ	6 A Yes		6 Q And are you familiar with the term pilot
8 A The accident facts were reported to crew 9 members and also there is a chart that we use and a 10 warning information was noted on the chart 11 Q And where is this chart and warning kept? 12 A There is a route manual, and it is written on 13 the route manual and it is written on 13 the route manual and it is written on 14 Page 41 Q Is that the operations manual? 15 A No It's a separate thing 16 Q and it's called the route manual? 17 A Yes 18 Q And is that kept in the afroraft? 18 Q And is that kept in the afroraft? 19 A Each individual has one 20 Q So every pilot has their own route manual? 11 A By own, your term own, do you mean 12 individually? 12 Q Well, if you wanted to look at the route 24 manual, where would you go to get It? 19 A And who is doing the looking, me or you? 19 A Yes, that's right 19 You wanted to go and kok at the route manual — I'll 19 rephrase it 19 Q Mand would have the accument that you would Page 41 Page 42 Page 43 Page 44		7 Q And what corrective action was taken?		
warning information was noted on the chart 1 Q And where is this chart and warning kept? 1 A There is a route manual, and its written on 13 the route manual 14 Q Is that the operations manual? 15 A No It's a separate thing 16 Q And it's called the route manual? 17 A Yes 18 Q And is that kept in the aircraft? 19 A Each individual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 27 Page 46 28 Q Mr Yamaguchi, let me ask you again If you 28 wanted to go and look at the route manual Ifd 39 rephrase it 40 Would ANA have a copy of the route manual that 50 you've referred to? 50 A The company has a copy, and also the same copy 51 is distributed to each individual 52 Q Okay. Now, what does the warning that you've 53 described as the corrective action following this 54 O Ctobber 7, 2003 accident, what does that warning state? 55 A The company has a copy, and also the same copy 7 is distributed to each individual 7 Q Okay. Now, what does the warning that you've 7 described as the corrective action following this 55 or including the continual in the pilot logibook? 56 A The company has a copy, and also the same copy 7 is distributed to each individual 7 Q Okay. Now, what does the warning state? 8 A The company has a copy, and also the same copy 8 Is a warning that says that the aircraft 9 Q Okay And it obviously was revised with these 8 corrective actions that you've described; correct? 9 A Yes 10 Q Okay And it obviously was revised with these 11 Corrective action that had existed before October 7, '03? 12 A The route manual it had existed before October 7, '03? 13 A The route manual it had existed before October 7, '03? 14 A The route manual it had existed before October 7, '03? 15 A The route manual it had existed before October 7, '03? 16 A The route manual it had existed before October 7, '03? 17 A Yes 18 A No 19 Correctiv		8 A The accident facts were reported to crew	1	
11 Q And whare is this chart and warning kept? 12 A There is a route manual, and it is written on 13 the route manual 14 Q Is that the operations manual? 15 A No It's a separate thing. 16 Q And it's called the route manual? 17 A Yes 18 Q And is that kept in the aircraft? 19 A Each Individual has one 20 Q So every pilot has their own route manual? 21 individually? 22 A By own, your term own, do you mean 22 individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 Page 46 27 Q Mr Yamaguchi, let me ask you again If you 28 wanted to go and look at the route manual that you've described as the corrective action following this obtained to each individual to the from the aircraft pushing back from gale to r? 19 Q Is that a — this route manual, is that a route manual that de destribed form of the aircraft pushing back from gale to r? 19 A Yes 20 Q Cay And it obviously was revised with these corrective action find twidual should bring one in Q Okay And it obviously was revised with these corrective action that is not required to be be kept on the aircraft itself, the route manual? 21 A Yes 22 A It is a publication that's required to be be kept on the aircraft itself, the route manual? 23 A Yes 24 Q So at the time of this accident, there was a to so and to work the aircraft itself was the route manual? 25 A Pres 26 Q And so that a publication that's required to be be kept on the aircraft itself, the route manual? 27 A Yes 28 Q Mow, you windicated earlier that there was no reason for the first officer not to be the flying pilot that day? 29 A Yes 20 Q Say Show, what does the warning state? 31 A No I was not on medication that a publication that's required to be one copy of the route manual? 31 A No I was not on medication of that is not required to be one copy of the route manual? 32 A No I was not on medication of the source of the aircraft itself, the route manual? 35 A No I was not on medication of the source of the day? 36 Yes	1			9 Q What does that mean to you?
12 is logged in pilot logbooks? 13 A There is a route manual representation on the route manual representation of the route manual? 14 Q Is that the operations manual? 15 A No It's a separate thing representation of the route manual? 16 Q And it's called the route manual? 17 A Yes representation of the street own route manual? 18 Q And is that kept in the alrorat? 19 A Each individual has one representation of the street own route manual? 21 A By own, your term own, do you mean individual? 22 Q Well, if you wanted to look at the route manual, where would you go to get it? 23 Q Well, if you wanted to look at the route manual representation of the sirrorate of the street of the str	1		1	0 A It is a personal flight log
13 the route manual 14 Q Is that the operations manual? 14 Q Is that the operations manual? 15 A No It's a separate thing. 16 Q And it's called the route manual? 17 A Yes. 18 Q And it's called the route manual? 19 A Each individual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 individually? 22 A Mown bis doing the looking, me or you? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 Page 46 1 Q Mr Yamaguchi, let me ask you again If you 29 wanted to go and look at the route manual - Til 3 rephrase it 4 Would ANA have a copy of the route manual that 5 you've referred to? 26 A The company has a copy, and also the same copy of si distributed to each individual 8 Q Okay. Now, what does the warning that you've gescribed as the corrective action following this 10 October 7, 2003 accident, what does that warning state? 11 A It is a warning that says that the aircraft should not taxi if there is an aircraft pushing back 13 from gate 1 or 2 14 Q Is that the opter annual; sthat a route manual that had existed before October 7, 073? A The route manual that had existed before October 7, 073? A The route manual that had existed before October 7, 073? A The route manual that had existed before October 7, 073? A The route manual that had existed before October 7, 073? A There was no reason for the first officer not to be the flying pilot on October 7, 2003 accident, what does that warning state? A No. I was not on medication that procluded vour from being the flying pilot and october 7, 2003? A No. I was not on medication that precluded you from being the flying pilot that day? A No. I was not on medication that precluded you from being the flying pilot and that had existed before October 7, 073? A No. I was not on medication that precluded you from being the flying pilot on October 7 of 073? A No. I was not on medication that precluded you from being the flying pilot and that had existed	- 1		1	Q And what kind of information do you understand
14 Q Is that the operations manual? 15 A No It's a separate thing. 16 Q And it's called the route manual? 17 A Yes. 18 Q And is that kept in the aircraft? 19 A Each Individual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 manual, where would you go to get it? 27 A My wanted to go and look at the route manual that be you've referred to? 28 Q Kay Now, what does the warning that you've described as the corrective action following this obodohor 7, 2003 accident, what does that warning state? 29 A Tis on warning that says that the aircraft should not taxi if there is an aircraft pushling back from gate 1 or 2 20 Q Kay And it obviously was revised with these corrective actions that you've described; correct? 20 Q And so that a publication that's required to be be kept on the aircraft itself, the route manual? 21 Is a publication that is not required to be be kept on the aircraft itself, the route manual? 22 A It is a warning that says that the aircraft posting back as the corrective action following this route manual that had existed before October 7, 103? 20 A Yes 21 Q Cokay And it obviously was revised with these corrective actions that you've described; correct? 21 A Yes 22 A The route manual itself existed on Page 47 23 ontobard, but each individual should bring one in othorach, but each individual should bring one in othorach, but each individual should bring one in othorach, but each individual should bring one in least one copy of the route manual as it existed on Page 47		The state of the s	1	
15 A No It's a separate thing 16 Q And it's called the route manual? 17 A Yes 18 Q And is that kept in the aircraft? 19 A Each individual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 Individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 wanted to go and look at the route manual - I'il 27 rephrase it 28 Q Okay Now, what does the troute manual that 29 you've referred to? 20 A The company has a copy, and also the same copy 20 is distributed to each individual 21 should not taxi if there is an aircraft pushing back 22 from gate 1 or 2 24 Q Is that a - this route manual, is that a 25 route manual that had existed before October 7, '03? 26 A The route manual itself existed 27 Q And is that a publication that is route manual? 28 A Yes 29 Q Okay Were you call it, similar to a pilot 29 that would be, whatever you call it, similar to a pilot 20 Q And would ANA have one? 21 A Yes, that's right 22 A Yes, that's right 23 Q Would ANA have one? 24 A Yes, that's right 25 Q And would that be a document that you would 26 Page 46 27 A Yes 28 Q Would ANA have one? 29 A Yes 20 Q And would that be a document that you would have had on the aircraft on October 7 of '03? 20 A The company has a copy, and also the same copy 21 is distributed to each individual 22 A Is a warning that tay tou've 23 described as the corrective action following this 24 O Okay And it doviously was revised with these 25 onboard, but each individual should bring one in 26 Q Okay And it doviously was revised with these 27 onboard, but each individual should bring one in 28 Q Okay Were you on any medication that is proute manual? 29 A Yes 30 Q Okay Were you on any medication that in there is an aircraft to october 7 of '03? 31 A No I was not on medication 32 Q Okay Were you on any medication that in the report of the aircraft of '03? 33 Q Okay Were you on any medication that in the report of the aircraft of '03? 34	- 1	· · · · · · · · · · · · · · · · · · ·	1.	A Information such as the flight times,
16 Q And it's called the route manual? 17 A Yes 18 Q And is that kept in the aircraft? 19 A Each individual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 wanted to go and look at the route manual - I'll 27 a Page 46 28 Q Okay Now, what does the warning that you've 28 described as the corrective action following this 29 Okay Now, what does the warning state? 31 A The company has a copy, and also the same copy 30 is distributed to each individual 31 rephrase it 32 Q Key Now, what does the warning that you've 33 described as the corrective action following this 34 cotober 7, 2003 accident, what does that warning state? 35 It is a warning that says that the aircraft should not taxif if there is an aircraft pushing back from gate 1 or 2 31 op Okay And it obviously was revised with these corrective actions that you've described; corrective actions that you've described; corrective actions that you've described as the corrective actions that you've described; corrective actions that you could not taxif if there is an aircraft pushing back from gate 1 or 2 31 A The route manual itself existed 31 Foote manual that had existed before October 7, 103? 32 A The route manual itself existed 33 or oboard, but each individual should bring one in 24 Q So at the time of this accident, there was a 16 corrective action of this accident, there was a 16 corrective action of this accident, there was a 17 corrective action of this accident, there was a 17 corrective actions that is not required to be a corrective action of this accident, there was a corrective action of the interior accident at a problemany and a corrective action		The state of the s	1.	4 departure, IMC, time, and nighttime, and the number of
17 correct? 18 A Yes 19 A Each individual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 Page 46 1 Q Mr Yarnaguchi, let me ask you again If you 27 wanted to go and look at the route manual — I'll 28 q Would ANA have a copy of the route manual that 29 you've referred to? 20 A The company has a copy, and also the same copy 20 described as the corrective action following this 21 look what does the warning that you've 22 described as the corrective action following this 23 clother 7, 2003 accident, what does that warning state? 24 A The route manual that a system the aircraft pushing back 25 from gate 1 or 2 26 Q Kay Now, what does that warning state? 27 Q Cay The journey log, is that required to be on the aircraft on October 7 of '03? 28 A There was no reason 39 from gate 1 or 2 40 Q Is that a — this route manual, is that a 15 route manual that had existed before October 7, '03? 41 A The route manual itself existed 42 Q So at the time of this excident, there was at 24 Q So at the time of this excident, there was at 25 jeast one copy of the route manual as it existed on 17 Page 47 18 A Yes 4 A Yes, that's right Q And would that be a document that you would Page 46 1 A The was no the aircraft on October 7 of '0303? 2 A Yes 2 A My understanding that the pilot logbook is a 24 personal record. It is different from the jolophook is a 25 personal record. It is different from the journey log, which is the logbook for the aircraft to 20 Chay Now, which is the logbook for the aircraft to 20 Chay Now, which is the logbook for the aircraft to 20 Chay Now, which is the logbook for the aircraft to 20 Chay Now, which is the logbook for the aircraft to 20 Chay The journey log, is that required to be on the aircraft on October 7 of '03? A There was no reason. 13 from gate 1 or 2 Q And would that be a document that there was	- 1		1!	
18 Q And is that kept in the aircraft? 19 A Each individual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 wanted to go and look at the route manual — I'il 27 a rephrase it 28 Q Would ANA have a copy of the route manual — I'il 29 a rephrase it 30 Q Kay Now, what does the warning that you've described as the corrective action following this 31 October 7, 2003 accident, what does that warning state? 32 If a It is a warning that says that the aircraft should not tax if there is an aircraft pushing back from gate 1 or 2 31 Q Okay And it obviously was revised with these corrective actions that you've described; correct? 32 Q And do you as a pilot for ANA have something that would be, whatever you call it, similar to a pilot logbook? 32 A Id not have one 33 Q Would ANA have one? 34 A yes, that's right Q And would that be a document that you would Page 40 35 rephrase it 4 Would ANA have a copy of the route manual that 5 you've referred to? 4 Would ANA have a copy of the route manual that 5 you've referred to? 5 A The company has a copy, and also the same copy is is distributed to each individual a should bring that you've described as the corrective action following this occurred to a time a present record it is different from the journey log, which is the logbook for the aircraft on October 7 of '03? 4 A Yes 4 No Now, you indicated earlier that there was no reason for the first officer not to be the flying pilot to a on the aircraft on October 7, 2003? 4 A Yes 4 No It is a warning that says that the aircraft she pilot logbook for the aircraft on October 7, 2003? 5 A There was no reason for the first officer not to be the flying pilot that day? 5 A Yes 6 Okay And it Ovolusly was revised with these corrective actions that you've described; correct? 9 A Yes 19 A Yes 10 October 7, 2003 accident, what desire kitsed on the	ſ	 -	10	 Q. It would have the number of hours flown too;
19 A Each individual has one 20 Q So every pilot has their own route manual? 21 A By own, your term own, do you mean 22 individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 Page 46 1 Q Mr Yamaguchi, let me ask you again If you 27 wanted to go and look at the route manual - I'll 28 you've referred to? 29 A Would ANA have a copy of the route manual that 30 you've referred to? 4 Would ANA have a copy of the route manual that 4 You've referred to? 5 A The company has a copy, and also the same copy 7 is distributed to each individual 8 Q Okay Now, what does the warning that you've 9 described as the corrective action following this 10 October 7, 2003 accident, what does that warning state? 11 A It is a warning that says that the aircraft 12 should not taxi if there is an aircraft pushing back 13 from gale 1 or 2 14 Q Is that a - this route manual, is that a 15 route manual that had existed before October 7, 103? 16 A The route manual is tested of 12 Q Okay And it obviously was revised with these 18 corrective actions that you've described; correct? 19 A Yes 20 Q And do you as a pilot for ANA have a pilot to have one 21 La I do not have one 22 A I do not have one 23 Q Would ANA have one? 24 A Yes, that's right 25 Q And would that be a document that you would Page 4 1 have had on the aircraft on October 7 of 2003? 2 A Yes Q Okay Now, what does the warning state? 10 Cotober 7, 2003 accident, what does the warning state? 11 A It is a warning that says that the aircraft 12 should not taxi if there is an aircraft pushing back 13 from gale 1 or 2 14 Q Is that a - this route manual, is that a 15 route manual ithat had existed before October 7, 103? 16 A The route manual ithat had existed before October 7, 103? 17 A Yes 18 Q Now, you indicated earlier that there was no reason for the first officer not to be the flying pilot to Ocbober 7, 2003? 2 A There was no reason 2 Q Okay And it obviously was revised with these 2 corrective	1		17	
Q So every pilot has their own route manual? Individually? Q Well, if you wanted to look at the route manual, where would you go to get it? A And who is doing the looking, me or you? Page 46 Q Mr Yamaguchi, let me ask you again If you wanted to go and look at the route manual - I'll are phrase it Would ANA have a copy of the route manual that you've referred to? A The company has a copy, and also the same copy is distributed to each individual as a Copy, and also the same copy is distributed to each individual as Q Okay. Now, what does the warning that you've described as the corrective action following this Should not tax if there is an aircraft pushing back froute manual itself existed Q Nay And it obviously was revised with these corrective actions that you've described; correct? A It is a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be bekept on the aircraft itself, there was at least one copy of the route manual as it existed on Page 47	- 1		1 -	
21 Iogbook? 22 individually? 23 Q Well, if you wanted to look at the route manual, where would you go to get it? 25 A And who is doing the looking, me or you? Page 46 1 Q Mr Yamaguchi, let me ask you again If you wanted to go and look at the route manual I'll arephrase it would ANA have a copy of the route manual that you've referred to? 6 A The company has a copy, and also the same copy is distributed to each individual \$0.00 ctober 7, 2003 accident, what does the warning that you've generated as the corrective action following this should not taxi if there is an aircraft pushing back from gate 1 or 2 14 Q Is that a this route manual, is that a route manual itself existed 17 Q Okay And it obviously was revised with these corrective actions that you've described; correct? A Tes oute manual itself existed 17 Q Okay And it obviously was revised with these corrective actions that you've described; correct? A Yes Q And is that a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that's required to be kept on the aircraft itself, the route manual? A No. I was not on medication that to rove the flying pilot that day? A No. I was not on medication and the aircraft provided you from being the flying pilot on October 7, 2003? A No. I was not on medication that to rove distinct that is not required to be kept on the aircraft itself, the route manual? A No. I was not on medication that to rove distinct the pilot logbook is a personal record. It is different from the judge's order? A Yes A Yes A Yes A My understanding that the pilot logbook is a personal record. It is different from the journey log, which is the logbook for the aircraft to Dotober 7 of '03? A Yes Q Now, you indicated earlier that there was no reason for the first officer not to be the flying pilot on October 7, 2003? A There was no reason for the first officer not to be the flying pilot on October 7, 2003? A	1		1	
22 Individually? 23 Q Well, if you wanted to look at the route 24 manual, where would you go to get it? 25 A And who is doing the looking, me or you? 26 Page 46 1 Q Mr Yamaguchi, let me ask you again If you 27 wanted to go and look at the route manual - I'll 38 rephrase it 4 Would ANA have a copy of the route manual that 5 you've referred to? 6 A The company has a copy, and also the same copy 7 is distributed to each individual 8 Q Okay. Now, what does the warning that you've 9 described as the corrective action following this 10 October 7, 2003 accident, what does that warning state? 11 A It is a warning that says that the aircraft 12 should not taxi if there is an aircraft pushing back 13 from gate 1 or 2 14 Q Is that a — this route manual, is that a 15 route manual itself existed 16 A The route manual itself existed 17 Q Okay And it obviously was revised with these 18 corrective actions that you've described; correct? 19 A Yes 20 Q And is that a publication that's required to be kept on the aircraft itself, the route manual? 21 A I do not have one 22 A Yes, that's right 24 A Yes, that's right 25 A My understanding that the you would that be a document that you would hat hat exircaft to P Q Now, you indicated earlier that there was no P Q Now, you indicated earlie	- 1		- 1	
Q Well, if you wanted to look at the route manual, where would you go to get it? A And who is doing the looking, me or you? Page 46 1 Q Mr Yarnaguchi, let me ask you again If you wanted to go and look at the route manual — I'il rephrase it Would ANA have a copy of the route manual that you've referred to? A The company has a copy, and also the same copy is distributed to each individual Q Okay Now, what does the warning that you've described as the corrective action following this October 7, 2003 accident, what does that warning state? If A It is a warning that says that the aircraft chorded a The route manual itself existed A The route manual itself existed Q Okay And it obviously was revised with these C Okay And it obviously was revised with these C Okay And it obviously was revised with these C Okay And it shat a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that is not required to be kept on the aircraft itself, the route manual? A It is a publication that is not required to be kept on the aircraft itself, the route manual? A It is a publication that is not required to be kept on the aircraft itself, the route manual? A It is a publication that is not required to be kept on the aircraft itself, the route manual? A It is a publication that is not required to be kept on the aircraft itself, the route manual? A It is a publication that is not required to be kept on the aircraft itself, the route manual? A It is a publication that is not required to be kept on the aircraft itself, the route manual? A It is a publication that is not required to be kept on the aircraft itself, the route manual? A It is a publication that is not required to be kept on the aircraft itself, the route manual? A No MR TORPEY: Well, the judge's order? A No Devaluation to the aircraft do Devaluate any type of alcohol or drugs of any kind within, say, 12 hours of departure on October 7 of '03? A No Devaluation that is not required to be condition that is not required to be condit	1			_
A And who is doing the looking, me or you? Page 46 Q Mr Yamaguchi, let me ask you again If you wanted to go and look at the route manual I'll rephrase it Would ANA have a copy of the route manual that you've referred to? A The company has a copy, and also the same copy is distributed to each individual Q Okay Now, what does the warning that you've described as the corrective action following this Cotober 7, 2003 accident, what does that warning state? If You Is that a this route manual, is that a route manual that had existed before October 7, '03? A The route manual itself existed Q Okay And it obviously was revised with these Corrective actions that you've described; correct? A Te route manual itself existed Q Okay And it obviously was revised with these Corrective actions that you've described; correct? A Te so untermanual that had existed before October 7, '03? A Yes Q Okay And it obviously was revised with these Corrective actions that you've described; correct? A Yes, A Yes, A Yes, that's right A My understanding that the piot october 7 of 2003? A My understanding that the piot logbook is a personal record. It is different from the journey log, which is the logbook for the aircraft to October 7 of '03? A Yes Q Okay Now, what does the warning that you've B Q Now, you indicated earlier that there was no reason for the first officer not to be the flying pilot to the five pilot pilot prevail the pilot logbook for the aircraft to October 7 of '03? A Yes Q Now, you indicated earlier that there was no reason for the first officer not to be the flying pilot on October 7, 2003? A There was no reason Q Okay Were you on any medication that A No. I was not on medication Q Did you take any type of alcohol or drugs of any kind within, say, 12 hours of departure on October 7 of '03? A No. I was not on medication A No. I was not on medication A No. I was not on medication A No. I was not on medi			- 1	
Page 46 A And who is doing the looking, me or you? Page 46 Q Mr Yamaguchi, let me ask you again. If you wanted to go and look at the route manual — I'll wanted to go and look at the route manual that you've referred to? A The company has a copy, and also the same copy is distributed to each individual Q Okay. Now, what does the warning that you've described as the corrective action following this october 7, 2003 accident, what does that warning state? If A It is a warning that says that the aircraft should not taxi if there is an aircraft pushing back form gate 1 or 2 Q Okay And it obviously was revised with these corrective actions that you've described; correct? A The route manual itself existed Q Okay And it obviously was revised with these corrective actions that you've described; correct? A Yes Q Okay And it obviously was revised with these corrective actions that you've described; corrective			1	•
Page 46 1 Q Mr Yarnaguchi, let me ask you again If you wanted to go and look at the route manual — I'll a rephrase it 4 Would ANA have a copy of the route manual that 5 you've referred to? 6 A The company has a copy, and also the same copy is distributed to each individual 8 Q Okay. Now, what does the warning that you've described as the corrective action following this 10 October 7, 2003 accident, what does that warning state? 11 A It is a warning that says that the aircraft should not taxi if there is an aircraft poshing back 15 route manual that had existed before October 7, '03? A Yes 20 Q And it obviously was revised with these corrective actions that you've described; correct? 19 A Yes 20 Q And is that a publication that's required to be kept on the aircraft itself, the route manual? 14 Q So at the time of this accident, there was at least one copy of the route manual as it existed on Page 47 11 Q Mr Yarnaguchi, let me ask you again If you wanted to go and look at the route manual in It you a personal for the aircraft from Cotober 7 of 2003? A My understanding that the pilot logbook is a personal record It is different from the journey log, which is the logbook for the aircraft to October 7 in 19. A Yes 20 Now, you indicated earlier that there was no reason for the first officer not to be the flying pilot in 15 the logbook for the aircraft on October 7 in 19. A Yes 20 Now, you indicated earlier that there was no reason for the first officer not to be the flying pilot in 15 there any reason that you could not or should not have been the flying pilot on October 7, 2003? A There was no reason 19. Q Okay Were you on any medication that precluded you from being the flying pilot that day? In 19. A No. I was not on medication Q Did you take any type of alcohol or drugs of 19. A No. I was not on medication Q Did you take any type of alcohol or drugs of 19. A No. I was not on medication Q Did you take any type of alcohol or drugs of 19. A No. I was not on medication Q Did you take any type of alcohol or drugs	- 1		1 -	
1 Q Mr Yamaguchi, let me ask you again If you 2 wanted to go and look at the route manual - I'll 3 rephrase it 4 Would ANA have a copy of the route manual that 5 you've referred to? 6 A The company has a copy, and also the same copy 7 is distributed to each individual 8 Q Okay Now, what does the warning that you've 9 described as the corrective action following this 10 October 7, 2003 accident, what does that warning state? 11 A It is a warning that says that the aircraft 12 should not tax if there is an aircraft pushing back 13 from gate 1 or 2 14 Q Is that a — this route manual, is that a 15 route manual that had existed before October 7, '03? 16 A The route manual itself existed 17 Q Okay And it obviously was revised with these 18 corrective actions that you've described; correct? 19 A Yes 20 Q And is that a publication that's required to 21 be kept on the aircraft itself, the route manual? 22 A It is a publication that's required to 23 onboard, but each individual should bring one in 24 Q So at the time of this accident, there was at 25 least one copy of the route manual as it existed on Page 47	-	. 2		
2 Wanted to go and look at the route manual — I'll 3 rephrase it 4 Would ANA have a copy of the route manual that 5 you've referred to? 6 A The company has a copy, and also the same copy 6 is distributed to each individual 8 Q Okay. Now, what does the warning that you've 9 described as the corrective action following this 10 October 7, 2003 accident, what does that warning state? 11 A It is a warning that says that the aircraft 12 should not taxi if there is an aircraft pushing back 13 from gate 1 or 2 14 Q Is that a — this route manual, is that a 15 route manual that had existed before October 7, '03? 16 A The route manual itself existed 17 Q Okay And it obviously was revised with these 18 corrective actions that you've described; correct? 19 A Yes 20 Q And is that a publication that's required to be kept on the aircraft itself, the route manual? 21 A My understanding that the pilot logbook is a personal record. It is different from the journey log, which is the logbook for the aircraft 2 Okay The journey log, is that required to be on the aircraft at there was no reason for the first officer not to be the flying pilot. 10 Is there any reason that you could not or should not have been the flying pilot on October 7, 2003? 11 A The route manual itself existed 12 Q Okay Were you on any medication that precluded you from being the flying pilot that day? 13 A No. I was not on medication Q Did you take any type of alcohol or drugs of any kind within, say, 12 hours of departure on October 7 of '03? 14 A No. I was not on medication Q Did you take any type of alcohol or drugs of any kind within, say, 12 hours of departure on October 7 of '03? 15 A No. I was not on medication Q Did you take any type of alcohol or drugs of any kind within, say, 12 hours of departure on October 7 of '03? A No. I was not on medication Q MR TORPEY: You know, Marshall, we'd like to look at the document. If you're producing documents, we'd like to have a chance to look at those? MR TURNER: Do you have a protective order pursuant to	<u> </u>	rage 40	<u>'</u>	Page 48
2 Wanted to go and look at the route manual — I'll 3 rephrase it 4 Would ANA have a copy of the route manual that 5 you've referred to? 6 A The company has a copy, and also the same copy 6 is distributed to each individual 8 Q Okay. Now, what does the warning that you've 9 described as the corrective action following this 10 October 7, 2003 accident, what does that warning state? 11 A It is a warning that says that the aircraft 12 should not taxi if there is an aircraft pushing back 13 from gate 1 or 2 14 Q Is that a — this route manual, is that a 15 route manual that had existed before October 7, '03? 16 A The route manual itself existed 17 Q Okay And it obviously was revised with these 18 corrective actions that you've described; correct? 19 A Yes 20 Q And is that a publication that's required to be kept on the aircraft itself, the route manual? 21 A My understanding that the pilot logbook is a personal record. It is different from the journey log, which is the logbook for the aircraft 2 Okay The journey log, is that required to be on the aircraft at there was no reason for the first officer not to be the flying pilot. 10 Is there any reason that you could not or should not have been the flying pilot on October 7, 2003? 11 A The route manual itself existed 12 Q Okay Were you on any medication that precluded you from being the flying pilot that day? 13 A No. I was not on medication Q Did you take any type of alcohol or drugs of any kind within, say, 12 hours of departure on October 7 of '03? 14 A No. I was not on medication Q Did you take any type of alcohol or drugs of any kind within, say, 12 hours of departure on October 7 of '03? 15 A No. I was not on medication Q Did you take any type of alcohol or drugs of any kind within, say, 12 hours of departure on October 7 of '03? A No. I was not on medication Q MR TORPEY: You know, Marshall, we'd like to look at the document. If you're producing documents, we'd like to have a chance to look at those? MR TURNER: Do you have a protective order pursuant to	1	Q Mr Yamaguchi, let me ask you again If you	1	have had on the aircraft on October 7 of 20032
rephrase it Would ANA have a copy of the route manual that you've referred to? A The company has a copy, and also the same copy is distributed to each individual Q Okay Now, what does the warning that you've described as the corrective action following this October 7, 2003 accident, what does that warning state? In A It is a warning that says that the aircraft should not taxi if there is an aircraft pushing back from gate 1 or 2 Q Is that a — this route manual, is that a It route manual that had existed before October 7, '03? A There was no reason Q Okay And it obviously was revised with these corrective actions that you've described; correct? A The route manual itself existed Q And is that a publication that's required to be kept on the aircraft itself, the route manual? A It is a publication that is not required to be on the aircraft on October 7 of '03? A Yes Q Now, you indicated earlier that there was no reason for the first officer not to be the flying pilot Is there any reason that you could not or should not have been the flying pilot on October 7, 2003? A There was no reason Q Okay Were you on any medication that precluded you from being the flying pilot that day? A No. I was not on medication Q Did you take any type of alcohol or drugs of any kind within, say, 12 hours of departure on October 7 of '03? A No MR TORPEY: You know, Marshall, we'd like to look at the document If you're producing documents, we'd like to have a chance to look at those? MR TURNER: Do you have a protective order pursuant to the judge's order? MR TORPEY: Well, the judge's order does not Page 49	2		1 -	
Would ANA have a copy of the route manual that you've referred to? A The company has a copy, and also the same copy is distributed to each individual Q Okay Now, what does the warning that you've described as the corrective action following this October 7, 2003 accident, what does that warning state? If A It is a warning that says that the aircraft should not taxi if there is an aircraft pushing back from gate 1 or 2 If Q Is that a — this route manual, is that a route manual that had existed before October 7, '03? A There was no reason Q Okay Were you on any medication that recluded you from being the flying pilot that day? A No. I was not on medication Q Did you take any type of alcohol or drugs of any kind within, say, 12 hours of departure on October 7 of '03? A No MR TORPEY: You know, Marshall, we'd like to look at the document If you're producing documents, we'd like to have a chance to look at those? MR TURNER: Do you have a protective order pursuant to the judge's order? MR TORPEY: Well, the judge's order does not Page 49	3		1	
you've referred to? these three depositions

MR TURNER: First, I would like to find out when you intend, pursuant to the judge's order of November 19 and your own statement to me of November 13, that you are going to make the changes the judge ordered should be made and give us a copy of the confidentiality order I don't understand what's taking so long

14 MR TORPEY: You recall that there was a long 15 16 holiday weekend, perhaps you forgot that, and here we are and I'm telling you again that I will make it 17 18 retroactive So rather than waste any more time talking about it, either produce the documents -- we agree on the record that it will be retroactive -- or don't produce them But I'm not going to ask you, again Marshall I'm going to assume whatever -- that whatever you do now is what you're going to do for the rest of

MR TURNER: I do have them here, and it's my

1 Now, it's here, and I want to make it a 2 hundred percent clear on the record that you are 3 agreeing that the documents that I give you will be subject to the order as expressed by the judge in the transcript of the hearing on November 13, 2007 б

MR TORPEY: Marshall, I have said yes to that question several times today and in a letter a week ago Now, please hand over documents and let's stop wasting my time and yours and the witness's We wanted to see the documents Can we see those now, please

11 MR TURNER: As far as wasting of time, you're 12 the one that has wasted virtually two weeks by now on 13 this confidentiality order, not to mention the fact that almost every correction that I had asked you to make 14 15 almost two months ago were the corrections that the judge ordered at the hearing on November 13 And we 16 could have had this done months ago not just at 10:00 o'clock this morning

MR TORPEY: Are you giving me the documents, Marshall, or not because I want to move on with this deposition? I'm not going to discuss it further with VOU

MR TURNER: Mr Yamaguchi has his certificates that you had requested be produced There's a copy for you, and I'm giving Mr Yamaguchi a

Page 50

intent to give them to you However, we did have some disagreement as to what the content should be The judge generally agreed to me, generally agreed you were going to get it to me right away

The judge ordered you should get it to me, and I want to note what the content is going to be before I turn it over to you, the documents over to you, pursuant to what you say you will agree to. Are the conditions that you're going to accept, the conditions that the judge expressed during the hearing on November 13

MR. TORPEY: Well, Marshall, of course I'm going to follow the judge's orders. That's why we had the hearing. This has already been decided, so I'm not going to waste any more time discussing it today

I want to see the documents. They were supposed to be produced at 10:00 a m. It's now afternoon I want to see the documents now Either decide to give it to me or don't, but at this point I'm going to continue asking questions --

MR. TURNER: I want it clear on the record -and don't give me this supposed to be produced at 10:00 o'clock I've had the documents here I've told you I've had the documents here, and I've been asking you where the order is that the judge had ordered you to give to us well over a week ago

Page 51

1 сору 2

MR TORPEY: Are you producing any other documents, Marshall? I want to see every document you're producing in response to my notice at this point

MR. TURNER: We are producing the training records that Mr Yamaguchi had discussed with the legal department of ANA and requested that the last column and the third from the last column be blacked out, redacted There's a copy of Mr Yamaguchi's training record for him and for you.

MR TORPEY: Is that it?

MR TURNER: Mr. Yamaguchi with regard to the accident investigation file had his statements to the NTSB and United Airlines, statements to the NTSB all of which have been produced and in everyone's possession for years

And as well the Jeppesen chart for the San Francisco International that was in effect on the day of the accident And this is not Mr Yamaguchi's document, but he hasn't had time to look for this since he didn't see your most recent document request until yesterday

23 And this is a section that he got from the 24 legal department at ANA of the operations manual of ANA that covers the portion of the flight on the day of the

accident, which is in effect now, many of which pages whatever necessary information that the company wants to were in effect on October 7, 2003, but some of them have 2 been altered and revised 3 Q Would it also be things like maintenance and 4 What I'm handing you now is a current copy 4 mechanical issues? 5 MR TORPEY: Well, I don't have it Why don't 5 A It would be rare for that type of information б you hand it to me 6 to be communicated to us when we are on land, but MR TURNER: One second Just looking to see 7 7 sometimes the aircraft mechanical issue may be 8 if I have an extra copy for you. Maybe we can have the communicated by us to the company 9 court reporter make a copy I think I just have one 9 Q So you agree there is a need for having a 10 copy. So let me identify it as operations manual 10 dedicated VHF radio with its frequency tuned to ANA 11 section 2 3 through 2 3 - 2-3-3, and supplement 11 while your aircraft is on the ground; correct? 12 pages 7S1 through 7S6-7 I don't seem to have an extra 12 A Not dedicated For example, we call it left, 13 copy, but we'll get a copy from the court reporter 13 right, and center radios As a custom, we use the left 14 MR TORPEY: Okay. Is that everything you're one for communication with ATC, the right one for 14 15 producing? communication with the company, and the center one for 16 MR TURNER: Yes data communication, but we can use them for different 16 17 MR TORPEY: Why don't we mark this as one 17 communications exhibit This could be Exhibit 2 18 18 Q Okay To the best of your knowledge, 19 (Whereupon, Exhibit 2 was marked for Mr Yamaguchi, as the pilot in command of the aircraft 20 identification) on October 7, 2003, at the time of the impact with the 21 MR TORPEY: Just, for the record, I have United aircraft, were your radios, the VHF radios, the marked as Exhibit 2 all of the documents that Mr Turner 22 left tuned to a frequency so you could talk to air has just turned over in response to our deposition 23 traffic control, the right tuned to a frequency so you 24 notice were talking or could talk to ANA, and the center tuned 25 So I will at some point, Mr Yamaguchi, ask to a frequency to allow you to receive data? Page 54

Page 56

```
you some questions about those, but I want the record to
    be clear that that's the totality of what I was given
3

MR TORPEY: Didn't I just say that, Marshall Once again, I'll say, yes, absolutely. I agree, as I did previously, to make these retroactively subject to the protective order

Q. Now, apologize, Mr Yamaguchi, for the delay. I'd like to get back to the VHF radio that we were talking about, and I want to try to go through this quickly because we still have a lot to cover

The second of the three VHF radios you 19 20 indicated would be used for communications with ANA, what kinds of things would you be communicating with ANA 21 22 about when the aircraft is on the ground, for example, 23 at San Francisco International?

A For example, if there is a weight and balance adjustment or if there are specific new alerts or

A I did not see those three radios just before and after the impact. It is certain that the left was tuned to communicate with ATC, but I do not have an 4 accurate recollection about the other two Q Well, Mr. Yamaguchi, as of the time of the

impact, if the normal routine was being followed by yourself and your crew members, you agree with me that the right-hand radio would be tuned to a frequency allowing you to talk to ANA and the center would be tuned to a frequency to allow you to receive data

Is that a correct statement, sir?

A Ordinarily that is so, but I do not have a recollection as to whether they were actually so at that time

Q Well, you have no reason to believe that they were not - let me rephrase it

Although you don't have a specific recollection today, would it be fair to say that you have no information whatsoever to lead you to believe that at the time of the impact the VHF radios were not set as you would routinely set them on the ground? THE INTERPRETER: The interpreter will repeat

the question in Japanese

THE WITNESS: There was no necessity to change them, but I cannot confirm that the right was set for

A Altitude is requested by the company to the ATC authority in advance Q. Do you remember the local time of day that this collision occurred? A Not accurately

16 (Pages 58 to 61)

The observer pilot would not for any reason

Q Who was doing the communicating on the day of

22 change the frequency on one of these radios any time up

to the time of impact; correct?

A Not ordinarily

23

24

25

21

23

24

Q Okay I know you're not sure, but what's your

A. The departure time was around 11:00 a m, so

22 best estimate of the time locally, Pacific time, that

the collision occurred?

it was around 20 minutes later

1 Q Do you recall if you left the gate on time? 2 A I do not recall 3 Q Okay There are other airlines besides ANA 4 that fly out of that terminal, that international 5 terminal that your aircraft departed from; correct?	A We receive dearance before departure, before we start the engine Now, let's say, there are two or more aircrafts that are scheduled to fly from San Francisco to Japan airspace and they're both being pushed back from their respective gates at around the same time How is it determined who is going to get
3 Q Okay There are other airlines besides ANA 4 that fly out of that terminal, that international	2 we start the engine 3 Q Now, let's say, there are two or more 4 aircrafts that are scheduled to fly from San Francisco 5 to Japan airspace and they're both being pushed back 6 from their respective gates at around the same time 7 How is it determined who is going to get
4 that fly out of that terminal, that international	4 aircrafts that are scheduled to fly from San Francisco 5 to Japan airspace and they're both being pushed back 6 from their respective gates at around the same time 7 How is it determined who is going to get
	4 aircrafts that are scheduled to fly from San Francisco 5 to Japan airspace and they're both being pushed back 6 from their respective gates at around the same time 7 How is it determined who is going to get
5 terminal that your aircraft departed from: correct?	5 to Japan airspace and they're both being pushed back 6 from their respective gates at around the same time 7 How is it determined who is going to get
	6 from their respective gates at around the same time 7 How is it determined who is going to get
6 A Yes	7 How is it determined who is going to get
7 Q And were you aware on October 7, 2003, that	
8 there were other airlines flying scheduled flights that	8 the — what I'll call the more optimal altitude
9 morning at around the same time of your flight to Japan?	9 assignments, if there's more than one aircraft competing
10 A No, I was not aware	10 for the designated altitude?
11 Q So you felt that your flight was the only	11 A I would not know that
12 flight of any airline going to Japan at around	12 Q Well, only one aircraft would be assigned to
13 11:00 o'clock in the morning that day?	13 one particular altitude at a time; correct?
14 A That is not what I felt	14 A There could be many cases, so I would not kno
15 Q What was your understanding with regard to	15 about that
16 other aircrafts, say, between 11:00 and 11:15 when you	16 Q. Well, I guess, Mr Yamaguchi, if you knew
17 were scheduled to depart from your gate? What was your	17 that, for example, United's aircraft or some other
18 understanding on October 7, 2003, about other aircrafts	18 aircraft was departing at about the same time as your
19 going to Japan departing at about the same time?	19 aircraft and was going to fly to Japan and only one of
20 A I don't know the specifics, but that is around	20 you could get what would be considered the most fuel
21 the time frame during which flights to Japan depart	21 efficient or optimal route, would you feel that the
22 Q In the area where you departed from, the gates	22 person who made the first request to ATC would be the
23 and then the ramp area that this collision ultimately	23 aircraft more likely to get that assignment? In other
24 occurred, at the time of the accident, was it a very	24 words, first come/first serve? Is that your
25 busy time of the day at that airport in that area, in	25 understanding of how the process works?
Page 62	
1 other words, a lot of arrivals and departures at that	1 A No, I don't think that is — would be the only
2 time?	2 reason
3 MR TURNER: Objection as to form and	3 Q Well, that could be one of the reasons, the
4 foundation	4 first to ask for the optimal airspace may be the one
5 THE WITNESS: Are you asking about the time or	5 that gets it; correct?
6 the location?	6 A That may be one of the reasons, but the routes
7 MR TORPEY: Q At the location in the ramp	7 from the West Coast to Asia are not limited to just
8 area including the gates and the adjacent ramp area, are 9 there a lot of flights that depart around the time your	8 San Francisco
	9 THE INTERPRETER: The interpreter will
10 flight was departing so that it's very congested, if you	10 restate
11 will, with arrivals and departures in that area at that 12 time?	THE WITNESS: That may be one of the reasons,
1	but the routes from the West Coast to Asia is limited
13 MR TURNER: Objection as to form and 14 foundation	13 San Francisco is not the only airport There is
15 THE WITNESS: I do not recall clearly	Los Angeles airport as well as many other airports along
16 MR TORPEY: Q All right Are some altitude	15 the West Coast from which the aircrafts depart
17 assignments for airspace between San Francisco and Japan	So even if a certain aircraft made the request
18 airspace better than others for purposes of fuel	17 first in San Francisco, it does not necessarily mean
19 efficiency, for example?	that that aircraft would be assigned that optimal route
20 A Yes	19 MR TORPEY: Q ANA flies between Los Angeles 20 and Japan; correct?
21 Q And when you're asking for clearance to taxi	20 and Japan; correct? 21 A Yes
22 and take off, do you request to be assigned to a	
23 particular altitude that you believe would be the most	22 Q And I take it you also fly that route with the 23 777?
24 fuel efficient or for whatever reason you believe to be	23 ///: 24 A Yes
DE II I I I I I I I I I I I I I I I I I	25 MR TURNER: Counsel, it's past 1:00 o'clock

```
It's way past time for lunch already Let's break now
                                                                       question read back please, in English
     2
               MR TORPEY: We just took a break 45 minutes
                                                                   2
                                                                              (Record read by the reporter )
     3
         ago, and I'm happy to stop for lunch, but I'd like to --
                                                                   3
                                                                              MR TURNER: Objection as to form and
               MR TURNER: If you're in the middle of a
     4
                                                                   4
                                                                       foundation
    5
        question, then finish the question Go right ahead
                                                                   5
                                                                              THE WITNESS: I do not understand what the
    6
               MR. TORPEY: Q With regard to flights
                                                                   5
                                                                       specific situation is, but I have not been trained for
    7
        between Japan and LAX, does ANA fly those on a daily
                                                                   7
                                                                       the collision that took place or anything simulating it
    8
        basis?
                                                                   8
                                                                              MR. TORPEY: Q Mr Yamaguchi, so there's no
    9
           A Yes
                                                                   9
                                                                       misunderstanding here, even though you were pilot in
   10
               MR. TURNER: You finished that question?
                                                                  10
                                                                       command of the ANA 777 aircraft, at no time up to
               MR TORPEY: Yeah I guess we can take a
   11
                                                                  11
                                                                       October 7, 2003, did you receive any training or
      break. You know, we've been going for about a little
   12
                                                                  12
                                                                       instruction of any kind from any source with regard to
        less than two and a half hours of testimony, so how long
   13
                                                                      what actions to take if you believe you are going to
   14
       do you want to break for?
                                                                 14
                                                                      collide with other aircraft on the ground?
              MR TURNER: An hour We've been going for
   15
                                                                 15
                                                                          A Although I have not received the training,
  16
       almost three hours of testimony.
                                                                 16
                                                                      there are warnings given in a document with regards to
  17
              MR TORPEY; No. We haven't.
                                                                 17
                                                                      similar incidents
  18
              MR TURNER: We had one break of about
                                                                 18
                                                                          Q What is the document you're referring to?
  19
       10 minutes, and it's well past break time, certainly for
                                                                 19
                                                                      What is it called?
  20
       the witness, I expect for the translator and for the
                                                                 20
                                                                             There is no special name I do not recall the
  21
       court reporter
                                                                 21
                                                                      name
             MR TORPEY: Testimony does not include a
  22
                                                                 22
                                                                             Is that a document that ANA has?
       lawyer discussion, Marshall, so as far as I'm concerned,
  23
                                                                 23
                                                                         A I think it was included in the -- in one of
      we've been here for a little less than two and a half
  24
                                                                 24
                                                                      the documents related to a work log that I saw
      hours of testimony. If you believe otherwise, we'll
                                                                 25
                                                                         Q Let me ask you this way, Mr Yamaguchi In
                                                       Page 66
                                                                                                                      Page 68
      just have to see how far this goes, but we'll break
                                                                     all your years of flying you have never heard anyone use
  2
      You request an hour break We'll break for an hour
                                                                 2
                                                                     the term conflict or conflict resolution; correct?
  3
             THE VIDEOGRAPHER: Should we go off the
                                                                 3
                                                                        A That's right.
  4
      record?
                                                                 4
                                                                        Q I want you to assume for purposes of my
  5
             MR TORPEY: Yeah
                                                                     questions, Mr Yamaguchi, that if your aircraft were
  6
             THE VIDEOGRAPHER: Going off the record The
                                                                 6
                                                                     taxiing and there's another aircraft a distance away and
  7
      time on the monitor is 1:01 p.m.
                                                                     there's a potential that those two aircrafts could
  8
            (Noon recess taken )
                                                                    collide, I want you to assume that that potential
 9
            THE VIDEOGRAPHER: Coming back on the record
                                                                    collision hazard is what I'm calling a conflict or
     The time on the monitor is 1:59 Please begin
 10
                                                                10
                                                                    potential conflict
 11
            MR TORPEY: Q Mr Yamaguchi, are you
                                                               11
                                                                           Do you understand me?
 12
     familiar with the term conflict resolution?
                                                               12
13
         A No I am not
                                                               13
                                                                        Q For example, on the day of this accident,
         Q. As a pilot for ANA, at any time were you
14
                                                                    October 7, 2003, was there any written material that
     trained by ANA or anyone else with regard to what to do
15
                                                                    you're aware of that would have assisted you in
     when you or a member of your flight crew perceives that
16
                                                                    determining, as you were taxiing towards the United
17
     it might potentially collide with another aircraft?
                                                                    aircraft prior to impact, to determine what you should
18
        A No
                                                                    do to decide whether or not there was a conflict and, if
19
        Q. So even to this day you have never received
                                                               19
                                                                   there was a conflict, what you should do to resolve it?
     any training from any source or anyone with regard to
                                                               20
                                                                          THE VIDEOGRAPHER: Excuse me one moment
21
    what actions you should take in order to determine
                                                                   Madam Translator, the microphone is right underneath the
    whether or not you're going to collide with another

6	and it is not possible to receive trainings for the	6	
7	various different special situations	7	•
8	Q Well, I'm not asking you, Mr Yamaguchi, if	8	A I can see it, but since I have not compared
9	you should get training for every conceivable accident	9	this to what we use, I cannot really tell whether they
10	that could ever possibly happen	10	are identical
11	I'm only asking you whether you believe it	11	Q Well, assume for purposes of my questions that
12	would have been useful or advisable for ANA to have	12	they are identical. On the day of the accident,
13	trained its pilots in conflict resolutions on or before	13	October 7, 2003, you were the captain; correct?
14	the day of this accident? Conflict resolution	14	A Yes
15	generally	15	Q And the word shall, you understand that this
16	A I do not believe that such a special training	16	is mandatory, not discretionary?
17	is necessary	17	A Yes
18	Q Do you know if other airlines provide conflict	18	Q And on the day of this accident, the flying
19	resolution training to its pilots?	19	pilot that was taxiing was not yourself but actually the
20	A I do not	20	copilot; correct?
21	Q Okay Now, you mentioned earlier in the	21	A Yes
22	testimony there was some kind of a warning relating to	22	Q Do you know if on the day of this accident,
23	collision hazards or potential collision hazards, and I	23	
	asked you what document that was called And I believe	23 24	October 7 of 2003, Mr. Yamaguchi, whether that was the
		2 4 25	rule that was in effect at that time as well as July 1 of 2007?

			21 (1 4503 70 10 01)	

1 A I do not recall accurately and the captain of a 777 in San Francisco with 155 or Q Well, do you recall anything at all about the more people I want you to assume that you, during that 2 2 3 conversation in that regard? taxi, see a United aircraft and you perceive that could - you don't know for sure - but you perceive 4 A I recall that we had the conversation, but I 5 do not recall the words that were spoken that could be a collision hazard Q Now, there's an area mike or microphones in 6 Do you understand my question to this point so 6 7 7 the cockpit, and those conversations would have been far, sir? recorded by the cockpit voice recorder; correct? 8 MR TURNER: So far there's no question 8 9 A I have never heard it 9 Objection as to form and foundation 10 Q That's not the question, Mr Yamaguchi The 10 THE WITNESS: Are you asking me to assume? question is would those discussions -- you were under MR TORPEY: Q Mr Yamaguchi, I think, with 11 11 power, and therefore the cockpit voice recorder was all due respect, my guestion was clear I've only asked 12 12 you whether you understood my question to this point working at the time you had those discussions in the 13 13 Do you understand my question to this point, 14 cockpit; correct? 14 15 A. Yes. 15 sir? That's the only thing I've asked you Q. And so whatever was said by yourself or your 16 A I don't know what question you are referring 16 two fellow pilots, as far as you know would be recorded 17 17 to on the cockpit voice recorder; correct? 18 Q. Mr Yamaguchi, we'll try another question 18 19 A I don't know I've never heard it 19 since apparently you won't answer that one Q Was the discussion in English or Japanese? 20 MR TURNER: There's no reason for those kind 20 21 of saide comments 21 MR TORPEY: I think the question was direct, Q Now, let's say, did you at any point ever turn 22 22 off the cockpit voice recorder while you were taxiing 23 and I don't think it was answered, with all due respect 23 prior to the impact? to Mr Yamaguchi And I will try another question 24 24 because apparently that's the thing to do at this point 25 A No. Page 82 Q. Now, you indicated you don't know what you Q I'm asking you, sir, whether today when faced 1 1 thought should be done back on October 7, 2003 So 1 with a potential collision hazard at San Francisco 2 2 want to ask you, let's assume that today, okay, that airport what it is you, as the pilot in command, are 3 today you're taxiing at San Francisco Airport and required to do? That's the question 5 exactly the same situation presents itself to you as it 5 A And naturally if I believe there will be a 6 did on October 7 of 2003 6 collision, I will stop But if I judge that there's no 7 When you perceive a potential conflict or 7 potential for a collision, then I will continue to taxl collision hazard with the United aircraft, what do you 8 Q Now, if you're not sure whether or not you're 8 9 believe you should do at that point? 9 going to make it or clear, do you agree in that MR TURNER: Objection as to form and 10 situation that you should stop until you know, in fact, 10 11 foundation, incomplete hypothetical and a misstatement 11 you're not going to collide? of this witness's prior testimony 12 A If there's a potential for a collision, then 12 MR TORPEY: O Go ahead 13 13 naturally we will stop A In the first half of your question you stated, 14 Q And was that the understanding you had of what 14 quote, you indicated that you do not know what should be you should do back on October 7 of 2003 as well? 15 15 done or what should have been done on October 7, 2003, 16 A When you ask me is that the understanding, 17 close quote 17 what understanding are you talking about? 18 I have never made such a statement 18 Q In response to two questions, you just told me MR TORPEY: Q. Well, you indicated you don't what you believed you should do today if faced with a 19 19 recall what you thought you should do collision hazard My question is would that be the same 20 20 21 MR TURNER: Objection as to form and 21 answer that would apply back in October 7 of 2003, if 22 foundation, misstatement of this witness's prior 22 faced with the same situation I presented in my testimony, and you're just arguing with the witness 23 23 hypothetical today? MR TURNER: Objection as to form and 24 MR TORPEY: Q Mr. Yamaguchi, I want you to 24 assume that you, right this moment, are pilot in command 25 25 foundation Page 83 Page 85

THE WITNESS: Do you wish to inquire if we should have stopped? Is that what you are trying to 3 4 MR TORPEY: Q Mr Yamaguchi, do you agree with me, sir, that if on October 7, 2003, you or any member of your flight crew felt that you were going to 7 collide with the United aircraft, that it was incumbent 8 upon you to stop your aircraft? Do you agree with that? 9 A If we had felt that there would be a 10 collision, then naturally we would have stopped, but we 11 did not think so. That is why we continued taxiing 12 Q Now, Mr Yamaguchi, if on October 7, 2003, you didn't know for sure whether or not you might collide 13 with the United aircraft, would you agree with me that 14 you should stop until you know for sure whether or not 16 you were going to collide with the United aircraft? MR TURNER: Objection to form and foundation 17 18 THE WITNESS: I do not agree 19 MR TORPEY: Q So even if you don't know 20 whether or not you're going to collide with the United 21 aircraft, you feel it's okay to continue taxiing until 22 you know for sure you're going to hit it? 23 MR TURNER: Objection as to form and 24 foundation and a misstatement of this witness's prior 25 testimony

1 Q So you believe that if United intruded into 2 the taxiing pathway, even if you have come to the determination that you're not sure whether or not you can clear the United aircraft, you are not obligated to 5 stop? 6

MR TURNER: Objection as to form and foundation and a misrepresentation of this witness's prior testimony.

THE WITNESS: I have been repeatedly saying that if we had judged that there was a possibility or potential for a collision, we would have stopped But at that time our judgment that -- was that there was no such possibility, therefore, we continued taxiing

14 MR. T'ORPEY: Q You've said that repeatedly, 15 Mr Yamaguchi, and I'm not asking you about that, so you don't have to tell me that yet another time 16

I'm asking you now to switch to another situation, that is if on October 7, 2003, you did not know for sure -- and I'll repeat it -- you did not know for sure that you would clear the United aircraft, in that situation, Mr Yamaguchi, you were required to bring your aircraft to a stop until you knew for sure that you would clear that conflict. True or false, sir? MR. TURNER: Objection as to form and

foundation and incomplete hypothetical

Page 86

Page 88

THE WITNESS: I would like the question again 1 2 That is not so. 3

MR TORPEY: Q. All right. So what you're saying, Mr Yamaguchi, is that if you're taxiing and you don't know for sure whether or not you're going to clear the conflict or the other aircraft, then until you do know for sure that you can clear, you should stop Is that what you're saying?

MR TURNER: Objection as to form and foundation and a misrepresentation of this witness's prior testimony

THE WITNESS: Talking in generalities, that would be the case

MR TORPEY: Q Okay And if on October 7, 2003, you or a member of your flight crew was uncertain whether or not your aircraft, if it continued to taxi, would be able to do so without hitting the United aircraft, then the correct thing to do would have been

20 would be able to avoid hitting it; correct? 21

A That is not so

4

5

6

7

8

9

10

11

12

13

14

15

17

19

22

23

Well, then explain why that's not so

to stop the taxi until you could determine that you

A There's another interpretation that is

possible and that is that the United aircraft intruded

into the path of our taxiing pathway

THE WITNESS: There seems to be a difference in our mutual understanding of the situation I judged that the situation was clear, therefore, I continued taxiing, but you are working on the premise that that was not possible

MR TORPEY: Q Mr Yamaguchi, I'm going to move to strike your answer as nonresponsive, and I'm going to ask you one final time, and I'm not going to ask it again. I'll take the matter up at another time if need be

MR TURNER: I object to your comments to this witness

MR. TORPEY: Q You've told us repeatedly that you believe that you could clear. I am not asking you about that I'll let you translate that

One last time, Mr Yamaguchi, I want you to assume - I want you to assume that on October 7, 2003, while your aircraft with 155 passengers was taxiing under your command and you saw the United aircraft and perceived a potential collision hazard, do you agree, Mr Yamaguchi, that you were obligated to stop if you did not know whether or not you were going to clear, if you did not know -- and I'll repeat -- if you did not know you would clear, you were obligated to stop; correct?

Page 87

_		···-	
1	MR TURNER: Objection as to form, foundation,		1 thought you were going to be able to clear, and based
2	incomplete hypothetical		2 that discussion, is it your understanding that the other

A Yes

before the impact?

A No

THE WITNESS: Yes

MR. TORPEY: Q. Now, there's a window on the

Did anyone that day prior to the impact open

right hand side of the cockpit that opens; correct?

the window and try to look out to see the wing tip

Eishin Yamaguchi

talking before the break about the fact that you were Q If you open the window on the right-hand side, certain that you were not going to collide with United 2 you'd be able to see the tip of the right wing, correct, aircraft, and that's why you did not order the aircraft 3 if you stick your head out and look? stopped prior to impact 4 A The potential for a collision wasn't that 5 What did you or others in your flight crew do 5 imminent, therefore, that was not done. But even if to determine and come to the conclusion that you were 6 that window was opened and someone had looked out, it 7 definitely not going to hit the United aircraft? would be difficult to gauge the distance between the 8 A First of all -wing tip of our aircraft and the wing tip of the 9 THE INTERPRETER: The interpreter will 9 opposing aircraft 10 restate 10 MR. TORPEY: And I'll move to strike THE WITNESS: First of all, from the cockpit 11 11 Q The question, Mr Yamaguchi, is if you looked 12 we saw that there was sufficient clearance or distance out the window, opened the window, put your head out and 12 and we had received the clearance to taxi and was 13 13 looked out the window, you can see the wing tip on the 14 taxiing according to instructions But from a certain right-hand side of your aircraft. True statement, sir? 15 point in time it is no longer possible to see the rear 15 A The answer is the same. Since that was not 16 of the aircraft, therefore, from that point on, it is necessary, it was not done 16 not possible to judge what the opposing aircraft did 17 Q I didn't ask you that, Mr Yamaguchi Once 17 18 MR. TORPEY: Q. All right Let me ask you 18 again, I'll move to strike, and for the last time I'll 19 Mr Yamaguchi, what you're saying is at some point in 19 ask you this question 20 time you can't see the tip of your right wing tip as you 20 If you want to see the right wing tip of your 21 continue to taxi towards the United aircraft; correct? 21 aircraft while you're sitting at the gate and you open 22 The wing tip cannot be seen from the cockpit that right-hand window and stick your head out, you can 22 23 And it was the wing tip --23 see the right wing tip of your aircraft, that 777 24 Α in a way 24 aircraft; correct? 25 Q I'm sorry The right wing tip of your 25 A That may be possible, but that is not a usual Page 94 Page 96 aircraft is what collided with the United aircraft; 1 1 procedure 2 correct? 2 Q. So you agree with me that if you wanted to 3 A Yes stick your head out the window as you were taxiing on Q And, in fact, even if you had looked out from 4 October 7, 2003, to see your right wing tip, you could 5 the first officer's position or your position or the 5 have done that, and you would have seen the right wing observer's position, even at the gate, you would still 6 6 tip; correct? 7 not be able to see the wing tip of your aircraft; 7 A In such a situation at that time it was not 8 correct? necessary to open the window and see the right wing tip, 8 9 A Yes 9 and, actually, it should not be done because naturally Q So during the entire time you're taxiing from 10 10 our aircraft would come to a stop, and it would not be 11 the gate to the impact, the portion of your aircraft 11 necessary. that struck the United aircraft, was never visible to 12 Q Are you testifying you have to stop the 13 you, the flying pilot or the observer pilot 13 aircraft to open that right window? 14 True statement? 14 Ordinarily the aircraft would be stopped 15 A You mean our wing tip? 15 Q. Not asking you ordinarily, Mr. Yamaguchi. I'm. 16 MR TORPEY: Read back the question, please 16 asking you whether you are testifying that in order to 17 (Record read by the reporter) 17 physically open the right wing -- excuse me -- the right

A That is not so

Q If you wanted to open the window -- I'm not
asking you whether you think you should I'm asking you
if you wanted to open the window or have your flying
pilot open the window on October 7 of 2003, look out the

window of your aircraft, that the aircraft must be at a

Is that your testimony, sir?

stop or you are unable to physically open that window?

Page 97

18

19

20

MR TORPEY: Q And what if you couldn't make window and see the wing tip to determine if there would 1 a determination either way? Would you stop or would you be clearance between your aircraft and the United 2 just drive up your driveway and see if you run over the aircraft, you could have done that; correct? That's the 3 only question You could have done that; correct? 4 4 5 MR. TURNER: Objection as to form and 5 MR TURNER: Objection to form and foundation foundation and incomplete hypothetical And I would like the question read back 6 7 THE WITNESS: Naturally, if I am in a 7 (Record read by the reporter) 8 THE WITNESS: I do not know if we could have, quandary, I would stop 8 MR TORPEY: Q And let me ask you this, 9 but it was not necessary to do so In fact, the United 9 Mr Yamaguchi If you or others in the cockpit cannot aircraft people did not open that aircraft's window 10 10 11 see the wing tip of your aircraft as you're taxiing 11 either towards the United Airlines on October 7, 2003, then MR TORPEY: Q. I'll move on to another 12 12 there's a portion of your aircraft that potentially is a question, Mr Yamaguchi. I'm not going to continue to 13 13 conflict hazard that you cannot rule out simply by ask you the same thing and get the same answer, so let 14 14 looking out the cockpit windows; correct? 15 me ask you this 15 16 A That is a structural issue As long as one If, in fact, as you've testified you can't see 16 17 operates a vehicle of that structure, it cannot be the right wing tip of your aircraft, then there is 17 absolutely no way you or your flying pilot or your 18 helped 18 Q I'm not asking you, Mr Yamaguchi, if it can 19 observer pilot can know for certain whether or not the 19 right wing tip is going to collide with the United be helped. I'm asking you once again, that since you 20 20 cannot see the right wing tip of your aircraft, it is aircraft because you can't see it within the cockpit 21 21 not possible -- it is impossible for you to see whether 22 True statement? 22 or not your wing tip is going to clear the United A The judgment of the --23 23 24 aircraft simply by looking out the windows in the THE INTERPRETER: The interpreter will 24 25 cockpit restate The interpreter has to confirm one word Page 100 Is that a true statement or false statement? THE WITNESS: The space or distance was judged 1 1 That's the question lust say true or say false before the collision took place. It is just like 2 someone who is driving a car from his left seat he 3 That's the question 3 cannot see the front right wheel of his car when he's 4 MR TURNER: Objection as to form and 4 foundation and the witness is instructed to give the 5 5 driving appropriate answer that he believes is responsive MR. TORPEY: Q Well, if there was an object 6 6 MR TORPEY: No The witness is to answer 7 7 in front of the front right wheel of your car, and you true or false. That's the question You aren't to didn't know -- let's put it this way ... 8 8 instruct your witness to answer other than a way I've 9 Let's say you're driving a car Let's say 9 10 asked the question you're just driving into a driveway in your house and 10 MR TURNER: You are not to instruct the let's say there's a bunch of nails in your driveway or 11 11 12 witness how to answer the question 12 maybe some glass 13 MR TORPEY: Well, I'm not going to argue with 13 And let's say that you pull in but you can't 14 14

really see your right front tire so you don't know if you are going to run it over and get a flat

Would you keep going until you see if you can make it, or would you stop, get out of the car and try to the determine whether your tire was going to run over i 7

What would you do, sir? 20

MR. TURNER: Object as to form and foundation THE WITNESS: That would depend on the

situation If I judge that it is dangerous, then I would stop and remove them. But if I judge that I can pass by, I would do so

Page 99

you, Marshall If you want to instruct him not to answer that question, you do so and you have a reason for doing so if you do But I've asked a question I've asked this witness whether he thinks it's a true statement or a false statement. That's the only question

Now if you want to follow up and ask questions additionally when you have a chance to do it, you can do

Q But right now, sir, all I want to know is what 23 I said to you is that a true statement or a false statement? That's the question

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	believes is an appropriate responsive answer THE INTERPRETER: The interpreter will repeat	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Stayed on it, and ultimately it was tugged back to the gate and that's where you got off. You walked directly into the jetway again? A Yes. Q Now, when you impacted the United aircraft, did your aircraft come virtually immediately to a stop? À Our aircraft did stop, but we don't know if it is due to the impact or due to the braking by the flying pilot. Q Okay Did he apply brakes immediately upon impact? A That I do not know. Q Did you do anything in terms of braking or physically manipulating any of the controls at any time on or after the impact? A No I did not apply the brakes nor did I manipulate any control. MR TORPEY: Now, let me show you let's mark this as the next exhibit. In fact, the next two exhibits (Whereupon, Exhibits 3 and 4 were marked for identification)
1		20	exhibits
1		1	•
23	pilot of this aircraft get out and look around the	23	MR TORPEY: Q Have you had a chance,
24	ground area where the collision occurred?	24	Mr Yamaguchi, to look at Exhibits 3 and 4, those being
25	A No	25	airport operations bulletins of July 31, 2000, and
	Page 102		Page 104
1	Q So other than looking out the window by the	1	August 7, 2001?
2	observer pilot to see whether there was any fuel	2	A No
3	leaking, did you or the other members of your crew take	3	Q Have you ever seen those before?
4	any other action other than simply leaving the airplane	4	A No
5	and going directly into the terminal?	5	Q Were you aware — let me have you look at
6	A We received a report from the cable	6	Exhibit 3, for example. It says, to all airlines and

6 We received a report from the cabin 7 Who, and what was that report? A I don't recall who 8 9 Q From a flight attendant 10 THE WITNESS (WITHOUT INTERPRETER): Yes MR TORPEY: Q. And what did the flight 11 attendant say, if you recall? 12 A The flight attendant reported that there was 13 nothing unusual in the cabin and the attendant reported 14 15 that there was no injury He or she then inquired what happened 16 17 Q And how were you all taken off the aircraft? Did you go out a back stairway on to a bus, or was your 18 aircraft pulled back to the gate. How was it that you 20 ultimately got off the aircraft, you and the other crew 21 members? A The aircraft was tugged and pulled back to the 22

Q So you never left -- you or your other crew members never got off the airplane, after the impact?

23

24

gate

Exhibit 3, for example It says, to all airlines and aeronautical support tenants On July 31, 2000, All Nippon Airways was flying aircrafts into San Francisco Airport; correct? 9 10 THE INTERPRETER: May I have the question, 11 please MR TORPEY: Let me ask you to mark this --12 why don't you mark this as exhibit whatever is next, 5, 13 14 I guess 15 MR WORTHE: 5 16 (Whereupon, Exhibit 5 was marked for 17 identification) 18 MR TORPEY: Q Mr Yamaguchi, you can see that is - let me represent to you that is a satellite photograph of the terminal and ramp area at 20 21 San Francisco Airport that includes the area where the 22 taxi and impact occurred You'll see that there are designated areas for 23 24 nonmovement area and others that are called movement areas Are you familiar with what a movement area is

Page 109

Page 30 of 38

Case 3:07-cv-03422-EDL

Filed 12/21/2007

Eishin Yamaguchi

Q And if you look at definitions, it describes 1 versus a nonmovement area? 1 what a movement area is and a nonmovement area. Do you 2 A Yes 3 see that? O What is the difference or the distinction 3 between what would be considered the movement area and A Yes 4 Q And then under that there's something called the nonmovement area in Exhibit 5? 5 5 6 reporting point A Nonmovement area is under the jurisdiction of 6 the ramp control, whereas the movement area is under the 7 A Yes 7 And it says numeric pavement marking located 8 8 jurisdiction of ground control on a taxiway that indicates a transition area from a 9 Q And ramp control is United ramp control in 9 nonmovement to a movement area, and it includes 10 this area; correct? 10 number 1, 2, 10, and 11 You see that? 11 A. I don't know if it is United or not, but it is 11 12 12 called a ramp control Q Now, are you familiar with the reporting area 13 Q. And the movement area is not under the control 13 known as spot 10 at San Francisco Airport? 14 of ramp control; correct? 14 15 A Yes A. Ordinarily that is so, but this particular 15 area is one where there is an overlap, so I don't know Q And is it your understanding that spot 10 --16 16 in fact, if you look at Exhibit 5, that recon photo 1, 17 17 what the true situation of the operation is do you see that designation for spot 10 where the arrow Q As a pilot for ANA are you saying that you do 18 19 is pointing? not know the distinction at San Francisco International 19 Airport with regard to who has jurisdiction over the 20 A Yes Q And do you understand that that's the 21 movement versus the nonmovement area? 21 reporting point or the transition point between the 22 22 A There's a guideline on the chart, but there is nonmovement to the movement area? 23 23 no way that I would be able to know how the ramp control 24 A Yes and ground control actually operate 24 Q Do you know why spot 10 is called a reporting 25 O. In order to taxi your aircraft onto any 25 Page 108 Page 106 point? portion of a movement area at San Francisco, you have to 1 contact the Federal Aviation Administration, ATC ground 2 That I did not know Q. If you look at the next line, procedures, it 3 control; isn't that true? 3 says here, aircraft -- strike that A I would like the question again, please. 4 The second paragraph under procedures, it says 5 Q. In order to taxi into any portion of a 5 here, unless otherwise directed, outbound taxiing movement area, you must get clearance from air traffic 6 б aircraft shall stop at respective reporting point prior 7 control ground control; correct? to contacting SFO air traffic control terminal for 8 8 A That's right further taxi instructions Do you see that? Q And you cannot get permission from ramp 9 9 10 A Yes control to go into a movement area; correct? 10 Q. On October 7, 2003, were you aware of that 11 11 requirement? 12 Now, the ground control, that is the Federal 12 13 Aviation Administration that are the ground controllers; 13 Q And how is it that you became aware of that 14 14 requirement on October 7, 2003, prior to that impact? A I do not know if it is under the jurisdiction 15 15 A It is written on the route manual of the FAA, but the ground control controls the movement 16 16 All right This is the manual that goes with 17 17 Q Okay Let me have you look back at Exhibits 3 18 the aircraft; correct? 18 A It is the manual that each individual has and 4, which were airport operations bulletins issued on 19 Q And as the pilot in command or the flying the dates indicated to all airlines which would include 20 20 pilot, both you and your copilot were required to know ANA, and it looks - under background -- in fact, if you 21 21 and follow that instruction; correct? 22 turn to the next page under procedures --22 23 MR TURNER: Are you referring to 3 or 4? 23 And if you turn the page again to the third 24 MR TORPEY: Let's look at Exhibit 3 first 24 page of Exhibit 3, it states here that all airlines are And I guess let's start under definitions 25

ſ			
	1 required to closely monitor and follow the clearances		1 Q And that would be consistent with strike
1	2 provided by these towers as well as those of FAA, ATO		2 that
	3 upon reaching reporting points which included spot 10		In other words, until you've got clearance
	4 Do you see that?		4 from ground or air traffic control, no part of your
ŀ	5 A Yes	- 1	5 aircraft, not the tip, not any part of your aircraft can
	6 Q And do you know what, if anything, ANA was		6 enter the movement area until you get clearance from
	7 doing at any time prior to October 7, 2003, to monitor		7 ground; correct?
	8 or enforce the requirements to comply with those		B A Yes.
ľ	9 clearances as that bulletin direction?		Q Now, let's look at the second page of
	10 A. There was nothing that was special but the	1	
- 1:	same thing is included in the route manual	1	
	Q Okay And I apologize if I asked you this	1:	
1	3 before The route manual would be carried on the	13	
	4 aircraft you were taxing the day of this accident;	14	
1	5 correct?	15	
- 1	6 A Yes	16	
1	7 MR TORPEY: Let's mark this as Exhibit 6	17	, g ep e e e mar and moralitation
- 1	8 (Whereupon, Exhibit 6 was marked for	18	
- 1	9 identification)	19	
	0 MR TORPEY: Q I'll represent to you,	20	·

17

1 2 the frequency with the ramp control, they would have 4 said, clear to spot 10, and then contact ramp 5 control - they would have said 6 THE INTERPRETER: The interpreter will 7 restate 8 THE WITNESS: If it had been necessary to 9 continue to monitor the ramp tower frequency, they would have stated the clearance in this manner, quote, you are 10 11 cleared to spot 10. Contact ground at spot 10 12 MR TORPEY: Q. Mr Yamaguchi, do you believe 13 that there's any safety hazard to the 155 people on your 14 airplane whose lives you're responsible for by virtue of the fact that you switched frequencies and are no longer 15 16 talking to ramp control which is the controller that is 17 monitoring the nonmovement area? 18 Do you think that that's dangerous that you've 19 switched that frequency when you're still in the 20 nonmovement area and can no longer hear or talk to the 21 ramp control? 22 MR TURNER: Objection as to form and 23 foundation

THE WITNESS: No, I do not

MR TORPEY: Q Now, you're the pilot in

24

25

we judged that we had a 100 percent understanding that there was clearance, therefore, we continued to taxi and stayed at the ground frequency

Q Again I'll move to strike, Mr Yamaguchi That's totally unresponsive to my question So as with my other questions, I'm going to ask the court to look at it, and I'll move on I can't obviously ask you anything else about that at the moment, so I'm going to turn to another topic

On the day of the accident, Mr Yamaguchi, as the pilot in control and with 155 people in your aircraft whose safety you're responsible for, if you wanted to stop the taxi and call ramp control, you had the ability to do that; correct?

MR TURNER: Objection as to form and 18 foundation

19 THE WITNESS: I had the ability, but I did not 20 believe that there was a necessity

21 MR TORPEY: Q And had you stopped and 22 contacted ramp control to inquire whether your aircraft 23 could safely pass by the United aircraft, what would you 24 have had to have done in order to do that? 25

MR. TURNER: Objection as to form and

foundation 2 THE WITNESS: I don't understand Could I 3 have the question again 4 MR TORPEY: Read it back 5 (Record read by the reporter) 6 MR TURNER: Same objection 7 THE WITNESS: We felt that there was no need 8 to take any action other than those that we took 9 MR TORPEY: Move to strike Not responsive 10 Q I didn't ask you, Mr Yamaguchi, whether you 11 felt it necessary. I asked you -- you're an intelligent man I asked you specifically if you had chosen, not 12 whether you should have, but if you had chosen to stop 14 your aircraft and contact ramp control prior to proceeding and colliding into the United aircraft, what 15 is it that you would have had to have done to do that? 16 17 MR TURNER: Objection as to form and 18 foundation as well as to counsel's snide comments. 19 THE WITNESS: My answer is not about this 20 case, but in general terms. If there is a judgment that 21 there is a danger, then we would stop the aircraft 22 Q Again move to strike Final time. 23 Mr Yamaguchi In order to stop the aircraft, what physically 24 25 has to be done? If you're taxiing on October 7, 2003,

1 let's say, halfway between the engine-start line and the 2 impact on October 7, 2003, you decided that you wanted to stop the aircraft, change the frequency back, and contact ramp control to determine if you had clearance to get past the United aircraft, would you agree with me, sir, you could have done that, you could have accomplished that within a minute or less? 8 MR TURNER: Objection as to form and 9 foundation and incomplete hypothetical 10 THE WITNESS: I cannot answer as to specifically how many seconds or minutes it takes to make the judgment Rather I do not know 13 MR TORPEY: Q How long does it take to 14 switch the frequency on your VHF radio? 15 A I think that could be done in a second. 16 Q And if you look at Exhibit 2, which is your 17 own company operations manual, page 2, why don't you take a look at that, Mr Yamaguchi, Exhibit 2 19 If you look under taxiing at subpart 2, you 20 are required to be observant of all obstacles around you 21 and taxiing speed is such that you may bring the 22 airplane to an immediate and complete stop 23 You see that? You see that, sir? 24 A It is so written here, but I do not know if the Japanese manual that I have is identical to the

Page 124

and you decided as the pilot in command to stop the taxi and then contact ramp control, to stop the airplane, physically, what do you do?

MR. TURNER: Objection as to form and

foundation.

THE WITNESS: In order to stop the aircraft, it is necessary to apply the brakes

MR TORPEY: Q Okay And how long would it take to apply the brakes and stop the aircraft if you had chosen to do that on October 7, 2003?

A. One cannot say categorically There are various cases.

Q. On the date and time you were taxiing on October 7, 2003, from the engine start line to the point of impact, if prior to impact you decided to hit the brake and stop, how long would it take for you to do that?

MR TURNER: Objection as to form and foundation and incomplete hypothetical

THE WITNESS: I would not know the exact amount of time

22 MR TORPEY: Q Well, it only takes a few 23 seconds to touch the brake pedal; correct?

A. If it's just touching, yes

Q Well, let me ask you this Mr. Yamaguchi, if,

1 English manual here

Q Well, let's assume that it is identical for purposes of this question and all of my questions on this Okay? You understand that Mr Yamaguchi?

A But would that not be disadvantageous for me? If the two manuals were different and I give my answer based on the English version and say that that is the ANA operation, that would be a disadvantage to me

Q Well, Mr Yamaguchi, I'm not going to comment on what's an advantage and disadvantage. I'm here to ask you questions under oath. Your counsel produced what he produced. Now all I can do is ask you questions with regard to what he produced to me not with what he didn't produce to me. That's for another day and time

I'm going to ask you to assume that the operations manual that you have in Japanese is exactly the same as the one your counsel produced to us in English, which we've now marked as Exhibit 2

Do you understand me so far, Mr. Yamaguchi?
MR. TURNER: And I will instruct the witness
that he can make that assumption for the purpose of
Mr. Torpey's next question that the text of the manual
in the first two pages of Exhibit 2 is the same as his
manual for the same subjects in his Japanese operations
manual. He can make that assumption. Okay?

23	MR TURNER: Objection as to form and	~4.	Q. Fair enough At some point did you observe

Page 129

23 that the United aircraft had stopped pushing back?

25 it stop Before that, I could no longer see it

A You're inquiring if it stopped I didn't see

MR TURNER: Objection as to form and

24 foundation and a total misstatement of what you just

25 read

this witness in 15 minutes I can occupy the next 15 1 Q Well, are you saying that you continually 2 watched the United aircraft -- strike that minutes to ask more questions, but there's no way I'll 3 Are you saying there came a point in time when 3 finish this deposition in 15 minutes you were no longer able to see any portion of the United 4 MR TURNER: Are you willing to go - right 4 5 now it's 6:05 Are you willing to go to 6:15? Are you 5 aircraft because you had continued to taxi to a point that you could no longer see it? Is that what you're 6 6 okay? 7 7 THE WITNESS (WITHOUT INTERPRETER): Yes saving? MR TURNER: Okay. Go for another 10 minutes, 8 MR TURNER: Objection as to form 8 9 and this deposition is then over: 9 THE WITNESS: No That's not what I'm saying MR TORPEY: Well, we'll ask the court to rule 10 10 While I could see the United aircraft, I judged the relative positions of our aircraft and the United 11 on that I think it's up to her and not you 11 MR TURNER: It's up to you You don't have 12 aircraft That is why we continued to taxi 12 MR. TORPEY: Q. Mr Yamaguchi, from the time 13 13 to ask the same questions ten times MR TORPEY: Q Mr Yamaguchi, take a look at you first saw the United aircraft start to push until 14 14 your statement, Exhibit 7, and you say here that the the impact, is it your testimony that you at all times 15 16 had in your field of view some portion of the United 16 pilot flying maneuvered slightly to the left side of the center line. It looked to me that the maneuver was to aircraft? 17 17 18 MR TURNER: Objection as to form and 18 increase the margin of clearance from United B777 19 Do you see that? 19 foundation 20 20 THE INTERPRETER: The interpreter will repeat Α O Did you understand that there was a potential 21 the question in Japanese 21 22 THE WITNESS: No That is not so The United 22 conflict or a potential collision hazard and that was 23 aircraft was no longer in my view before the impact for 23 the reason why the turn to the left was initiated? some time, although I don't know how many seconds that 24 MR TURNER: Objection as to form and 24 foundation and a misstatement of what you just read from 25 25 was Page 132 Page 130 1 MR TURNER: Just want to point out, 1 Exhibit 7 Mr Torpey, it is now after 6:00 p.m. We started this 2 MR TORPEY: And that's a speaking objection THE WITNESS: I do not know if the pilot deposition at 10:00 a m. We had just under an hour for 3 3 flying judged whether or not there was a potential lunch. The deposition has therefore been in progress 4 5 for in excess of seven hours. How much time do you collision hazard at this point 6 MR TORPEY: Q Well, Mr Yamaguchi, your 6 expect to continue this evening with this witness? MR TORPEY: Well, will you produce him again 7 statement says that it looked to you that that maneuver 7 was to increase the margin of clearance from UAL777 8 in the momina? 8 9 MR TURNER: No No He's schedule to go 9 That's your statement, correct, sir? 10 back tomorrow, and there is another witness scheduled to 10 A This present question is about me, but the question previous to this one was about pilot flying begin tomorrow As a matter of fact, you had said to me 11 when we were planning that you may not even need a whole 12 Therefore I said that I cannot tell what the pilot 13 day for the witness 13 flying thought MR TORPEY: Well, once again, Mr Turner, I 14 Q. Mr Yamaguchi, I move to strike that 14 don't know what you're referring to, but we have 15 I asked you a specific question I'm not 15 additional questions. I'm not done with this witness, asking about the question before that I'll ask it one 16 16 17 and I intended to continue as long as we have to and if 17 more time That is your statement that it looked to you, need be tomorrow or some other day 18 18 I'm not near finishing, and obviously there 19 Mr Yamaguchi, that the maneuver was to increase the 19 margin of clearance That's your statement are issues with regard to document production that we'll 20 20 take up with the court, but I have a number of other 21 My question to you, sir, is did you understand 21 22 in your mind as the pilot in command that day that the 22 questions to ask this witness 23 MR TURNER: Can you finish with this witness 23 reason your flying pilot turned to the left was because there was a perceived collision hazard so he wanted to in another 15 minutes if he's willing to stay? 24 24 increase the clearance or distance between the two 25 MR TORPEY: Certainly I cannot finish with 25 Page 133 Page 131

aircrafts pilot about the clearance between your aircraft and the 1 United aircraft Is that a true statement, sir? 2 2 Was that your thought in your mind when you 3 MR TURNER: Objection as to form and 3 made that statement? 4 foundation Objection as to form and foundation 4 MR TURNER: Objection as to form and 5 5 THE WITNESS: I do not recall that I perceived foundation, and you're simply arguing, arguing with the 6 witness You're not asking him questions here As a any potential conflict 6 MR TURNER: It's now more than past 6:15 7 7 matter of fact -- well, I said we'd go to 6:15 I'll This deposition has been going for 8 hours and 8 allow this nonsense to continue for another 6 minutes q 15 minutes with a one-hour break for lunch. This 9 THE WITNESS: Yes MR TORPEY: Q And on the next line of your 10 deposition is now over. 10 MR TORPEY: Well, for the record, it's not 11 statement you say you asked the pilot flying whether the 11 clearance was inadequate - or adequate Do you see 12 over, and we don't even have seven hours of testimony, 12 Mr Turner So I want it to be clear that we are not that? Let me withdraw it, and I'll restate it 13 only going to move that this deposition continue but the Your statement says that you asked your pilot 14 14 15 cost of having to come back here. So if you want to flying whether the clearance was adequate. Isn't it 15 16 terminate this deposition, you do so at your own risk. true, sir, that the reason you asked that question is that you as the pilot in command perceived a potential 17 I've got my client here Jeff Worthe is here 17 You made us come up from Los Angeles needlessly We're conflict or collision hazard with the United aircraft 18 18 19 going to have to come back here. And if you want to MR TURNER: Objection as to form and 19 20 terminate this deposition at this point with less than 20 foundation 21 seven hours of deposition testimony 21 THE WITNESS: I recall that it was not because of a potential for collision but rather because I 22 And, Mr. Reporter, how much time has actually 22 23 been used with testimony 23 thought that the clearance was closer than usually 24 MR TORPEY: Q Whether it was closer than 24 THE VIDEOGRAPHER: 6 hours and 34 minutes on 25 the record usual or not is irrelevant unless there's a collision 25 Page 136 Page 134 MR TURNER: This deposition is over 1 hazard: correct? 1 2 MR TORPEY: We'll take it up with the court 2 MR TURNER: Objection as to form and 3 3 MR TURNER: All you're doing is arguing with foundation 4 THE INTERPRETER: The question Can you read 4 the witness 5 5 MR TORPEY: Are you moving for a protective the question again. 6 THE WITNESS: No, that's not so order? 6 7 MR. TURNER: The deposition is over 7 MR TORPEY: Q So even if there's no collision hazard and in this case you believe there was 8 MR TORPEY: Is it over because you're moving 8 for a protective order? I'll take that as a no That 9 none, but you still were interested in knowing what the 9 clearance was Is that what you're telling this jury? 10 you're just terminating the deposition with no basis 10 So if that is the case, we'll take it up with the court A Wanted to know 11 11 12 MR TURNER: The deposition is over because 12 Mr Yamaguchi it's very simple In all we've exceeded the seven hours You've wasted hours honesty, if you had not perceived the collision hazard, 13 13 just asking the same questions over and over again and you would not have inquired of the pilot flying whether 14 14 arguing with the witness Deposition is over or not there was clearance; isn't that true? 15 15 16 16 THE VIDEOGRAPHER: Shall I go off the record? MR TURNER: Objection as to form and MR TURNER: It's not over. If you're going 17 foundation and I object that you're just arguing with 17 to represent that you're going to finish with this the witness 18 18 witness in the next 30 minutes, I'll permit him to stay, 19 THE WITNESS: It was not imminent like a 19 but you've refused to do this 20 potential for a collision 20 21 Can you finish with the witness in the next MR TORPEY: Again I'll move to strike 21 Q The question, Mr Yamaguchi, was not timing or 22 30 minutes? 22 23 MR TORPEY: I've already made my position 23 the imminent nature The question is you must have clear, Mr Turner, and if you're -- I'll ask 30 more perceived a potential conflict, potential, or you would 24 24 minutes of questions, but I won't be done in 30 minutes not as the pilot in command have inquired to your flying Page 137 Page 135
